

## POLICEMAN BEAT FRANCO, SAY FIREMEN

Members of Engine Co. No. 3 Declare They Heard Victim Pleading for Mercy From Patrolman Powell Pierce

Firemen Urge Chief Lynch to Take Proper Steps in Behalf of Badly Injured Man Now in S. F. Hospital

In behalf of Manuel Franco, members of Fire Engine Company No. 3, located at Eighth and Willow streets, appealed to Chief of Police Lynch today to take proper steps in behalf of Franco who was arrested last Monday by Patrolman Powell Pierce.

Francisco charges Pierce beat him unmercifully while in the lockup at Eighth and Willow streets. Franco is in a San Francisco hospital, internally injured.

According to Mrs. Franco, who was present at the time of her husband's arrest, there was no trouble between Franco and Pierce until after Franco had been taken to the lockup at Eighth and Willow streets.

Members of the Fire Engine Company No. 3, where the lockup is located, stated today that Franco was beaten by Pierce after Pierce had taken him in the lockup. They said that when Pierce was taken from the lockup to the city prison, he was badly injured, that he had to be carried to the patrol wagon.

The firemen also said they heard Franco begging Pierce not to beat him.

Francisco claims that Pierce beat him because of a slight delay in giving his name to the policeman. He says that Pierce set on him and beat him, kicking him in the ribs with his knee.

All this is denied by the policeman who says that he did not handle Franco roughly until they got into the city hall where Franco, he says, started to fight and refused to enter the cell and closed the door after him.

In reply to Franco's charge that his plea for medical attention was denied, Patrolman Pierce says that nurses examined Franco at the jail and found him to be suffering from nothing but a fractured rib, although he was later taken to the emergency hospital and found to be suffering from three fractured ribs, one of which had pierced a lung.

**Bolshevik Troops Win Yeisk Peninsula Fight**

LEAFED WIRE TO TRIBUNE. —Bolshevik troops have cleared the hostile forces from the entire peninsula of Yeisk, in Caucasus on the Sea of Azov. It is announced in a Soviet official communique received today from Moscow. The town of Yeisk has been occupied by the Reds.

In the fighting on the Polish front, where the Poles have recently reported decisive victories over the Bolsheviks, the communique said:

"In the Mohilev-Podolsk region our troops are continuing to advance. They are engaged in violent fighting in the Newberry region of Novaya-Ushitsa (in Podolia)."

**Guatemala Executes Californians, Belief**

VENTURA, March 12.—Three American citizens either have been executed in Guatemala as "conspirators" against that government, or are in imminent danger of such a fate, according to a report received here today. Imprisoned early in January and thrown into dungeons for alleged political plotting, the three men have since dropped completely from contact with the outside world, and the report is insistent that they have been put to death.

The men are Dr. Jules Bianchi, Fred Bianchi and Camille Bianchi of Ventura. In the absence of definite news regarding their fate, relatives living in California were making every possible effort today to learn the facts.

**Newberry Campaign Manager Collapses**

LEAFED WIRE TO TRIBUNE. —GRAND RAPIDS, Mich., March 12.—Paul King, Newberry campaign manager, made a vain attempt to receive testimony in the Newberry election conspiracy trial today. Suffering from effects of a nervous collapse, incurred last Tuesday, King was exhausted after five minutes of testimony and collapsed. He was taken to a hospital where he is now being treated. King was suspended while two physicians and Mrs. King attended him. Then the doctors ordered him back to bed.

## Contracts Let in Oakland For Nine Big Cargo Ships

Contracts for nine large cargo vessels have been signed by cable shipyards in the last week. Announcement to this effect and that three of the vessels are the largest tankers ever built on the Pacific Coast was made this afternoon at a luncheon of the new industries committee of the Chamber of Commerce. The Moore Shipbuilding Company will build these tankers.

In connection with the announcement, which is emphasized as an assurance that the shipbuilding business was about to show new expansion, it was announced that a representative of a great foreign company was on his way to Oakland and has at his disposal the placing of contracts for twenty-two new vessels.

## Doctor Smith Is Returned to Health Office

Former Occupant Successor to Dr. Crosby, Who Resigned Several Weeks Ago.

The appointment of Dr. Kirby Smith to the post of Health Officer vacated by the resignation of Dr. Daniel Crosby, was made by Commissioner of Public Health and Safety P. F. Morse this morning and approved by the City Council. Dr. Smith will assume charge of the city Health Department at once.

Dr. Smith occupied the same position at the head of the department for several years prior to the war, but tendered his resignation in order to accept a commission in the Medical Corps.

Dr. Crosby presented his resignation to Commissioner Morse several weeks ago. The resignation was not officially accepted until this morning when Commissioner Morse filed with the council a notification of his acceptance.

A resolution was presented confirming the action and was adopted by the council with a second reading and resolution confirming the appointment of Dr. Smith. There was no comment from the council members on the change.

**Missing S. F. Chemist Is Not Believed Held**

LEAFED WIRE TO TRIBUNE. —MEDICAL LAKE, Wash., March 12.—Officials at Medical Lake insane asylum today doubted if the man named H. J. Wetmore, who was reported missing from the city of San Francisco, was the same person as the man named H. J. Wetmore, who was reported missing from the city of San Francisco.

He is believed to have been formerly a patient at Agnew, Cal., officials said. His clothing was marked "Ward 11," which leads them to believe he may have escaped from some other hospital. He is fairly rational, officials said. He admits having been in California, but says that he was taken to Portland, Ore., and turned drift.

**Murder Jury Charge Is Set for Today**

BY ASSOCIATED PRESS. —LEAFED WIRE TO TRIBUNE. —MONTESANO, Wash., March 12.—Reading from the court's charge to the jury in the trial of the alleged murderer of Warren O. Grimm, Central armistice day parade victim, was delayed today. Judge John M. Wilfong, presiding, announced that his instructions had been completed and his instructions had been completed.

It is expected Judge Wilson could read his charge this afternoon, the court says. The trial is being held in the federal court building.

**Two Americans Held by Carranza Police**

BY ASSOCIATED PRESS. —AGUA PRIETA, Sonora, March 12.—Edwin Fillmore and Herman Sidway, giving their address as New York City, are being held by the Mexican authorities at Hermosillo, according to a statement made this morning by Roberto Carrillo, chief of the Northern Sonora Carranza secret service.

According to Carrillo, the men were arrested by the military last week in southern Sonora with two automobile loads of ammunition which they confessed were to be turned over to an outlaw gang.

Carrillo said Fillmore and Sidway were alleged draft evaders from the United States.

**Ice Gorge Wipes Out Property Along Path**

PITTSBURGH, March 12.—An ice gorge twenty feet high and eight miles long, broke loose at Freeport last night, started with a rush down the Allegheny, ran into the city of Pittsburgh, moving it ten inches out of line, tore a number of flatboats, large barges and houseboats from their moorings, worked them down the stream into the Ohio and pounding most of them into splinters on the way.

## DECOTO SIFTS SOBERBERG'S ACCUSATIONS

District Attorney Furnished Report That Commissioner Bacus Used Property of City at a Private Gun Club

"Small Political Trick," is the Comment by Bacus, in His Counter-Charges Aimed at Author of Water Pipe Raid

District Attorney Ezra Decoto this morning began investigating the charges made in the city council yesterday by Commissioner Bacus against the city property.

The Soderberg report and evidence have been brought to my office and I am looking them over," said Decoto this morning. "Until I have gone through them carefully I cannot say what my action will be."

City Clerk Lon W. Cummings this morning gave the council official notification that the city council yesterday adopted by resolution a resolution adopted by the council yesterday.

Decoto started his inspection of the testimony taken from employees of the street department, regarding the pipe and pump loaned to the club for a drinking water.

The testimony covers several typewritten sheets, and according to the appended summary of Soderberg, tends to show that Bacus misused the pipe and pump.

The ordinance passed to print by the council yesterday, effecting a switch of commissionerships, will come before the council again for final passage eight days from yesterday and will at that time become law.

Bacus today elaborated the statement he made yesterday charging that the move was the result of a plan to discredit him and place Edwards in charge of the Street Department.

"Edwards has long wanted to get control of this department," said Bacus today. "In the past he has made every effort to get Edwards to vote for the switch. Edwards, for one thing, wants to escape from his responsibilities as an ex-officio member of the School Board, especially in view of the approaching expenditure of the \$50,000,000 of bond money. He wants to dodge any responsibility for spending that money."

Continuing his charges made on the floor of the council chambers yesterday, Bacus stated today that Soderberg, who started the pipe probe, was equally guilty of the misuse of city property in directing George Keefe, former manager of the municipal auditorium, to lend 300 city chairs to the Union Construction company on the occasion of a luncheon.

Bacus also charged that Soderberg in September last year accepted \$74.74 from the city of Emeryville for the purchase of a school bus and specifications for a school bus.

In replying to Soderberg's allegation that he had misused his power in having employees do work for the Alameda county, Bacus charged today that Soderberg committed the same offense in directing Inspector V. J. Coley to accompany the city on the gun club grounds early Saturday morning.

MEMBERS SPECULATE ON SODERBERG MOVE. —The statement made by the city clerk today, that Soderberg had been charged with the misuse of city property, has caused much speculation today.

The statement by Bacus today also contained the charge that Edwards had purchased street improvement bonds in violation of the city charter and that he concealed a shortage of \$300 in his department that occurred during the final collection of tax money last year.

What action is to be taken by Soderberg in line with his demand for record of the charges made by Bacus will be the council's decision today.

**Marin Water for Eastbay Discussed**

Plans for raising the dam of the Marin Municipal Water District 70 feet to increase the storage capacity ten million gallons a day, were discussed at a meeting of the Board of Directors yesterday at San Rafael.

City Attorney Cornish and James Roney of Vallejo represented the respective cities at the meeting. It was stated that the district was using two and a half million gallons a day, a like amount was being sold to the Crockett Sugar Refinery and several million gallons more are available.

The amount of water on hand is sufficient to take care of Berkeley, Richmond and Vallejo in spite of a drought, it is declared.

**Husband Is Charged With Abusing Wife**

Although Philip Bertson, who married Mrs. Leonora C. Bertson as recently as last September, has money in three banks and earns about \$400 a month, he has failed to provide his wife with a decent place to live or with proper clothing or food, according to her complaint for divorce filed today.

## Wilson Asked by France to Verify Charge, 'Tis Said

(By United Press) WASHINGTON, March 12.—The French government has made an inquiry of the United States for an explanation of President Wilson's statement in a letter to Senator Hitchcock, that a military party is now in control in France, it was reported on good authority today.

It was said that the inquiry was not in the nature of a protest, but that it took the form of a question as to what the President based his statement on.

It is understood that the French request for information as to the basis for the Wilson charge was transmitted through the state department by the French embassy here.

Ambassador Jusserand would not confirm or deny this.

## Mayor Refuses Vice Challenge At Emeryville

Christie Declines to Debate Gambling Question With Taxpayers' Club.

EMERYVILLE, March 12.—One hundred persons unanimously passed a resolution challenging Mayor W. H. Christie to public debate on the question of gambling in the city and on the street work issue of the coming municipal election on April 12 at a meeting last night of the Emeryville Taxpayers' Club.

When Mayor Christie was notified of the challenge he said that he would not debate with John Gelder, president of the club, or any of its members, saying:

"Who do you mean? That crowd that calls themselves the 'Taxpayers' Club' or something like that? Well, that's the same bunch of disturbers that has been out here for thirty years and we've always ignored them. I wouldn't debate with them. They are a bunch of disturbers. The people of Emeryville know what the real facts are out here and that is all I care for."

In his resolution the club members take issue with statements made by Mayor Christie in his recent letter to THE TRIBUNE concerning gambling conditions in the city.

The resolution states that the wild statements in reference to vice conditions originated with a select few of disgruntled property owners. In seeking to discredit the good name of the town which shelters them in order to gratify their personal animosities they are shown to be shameless, without civic pride and very far from being good citizens.

The date for the debate set for the challenge is any time at least fourteen days before the election, April 12, and the place the club members have selected is the school house. The resolution is signed by John Gelder, president of the club, and J. J. Schuller, secretary.

Gelder this morning promised some new facts on gambling and vice conditions in the city if the challenge to debate is accepted.

"Who is John Gelder?" says Mayor Christie. "He is a man who has no right to speak for the city. We don't consider him. He is not even a voter of Emeryville."

**Jenkins Offers to Renounce U. S. Rights**

MEXICO CITY, March 12.—WILLIAM J. JENKINS, American consular agent at Puebla, who was arrested on the charge of conspiring with rebels for his own abduction, has today renounced his American citizenship and become a resident of Mexico.

He is returning to Mexico on a train today. He was arrested last night in the state of Tlaxcala, it was announced today.

The offer was based on Article 27 of the Mexican constitution, which says that a foreigner who takes up residence in Mexico is to be considered a Mexican citizen.

**Mrs. Adams Accepts Palmer's Invitation**

SAN FRANCISCO, March 12.—Mrs. Annette A. Adams, United States attorney, is to leave for Washington next Sunday in response to an invitation to visit the national capital, extended by United States Attorney General Mitchell Palmer.

Since his letter of invitation Palmer commented, "I am glad to have Mrs. Adams here. She is a woman of high character and I am sure she will be of great help to me in my work."

During her stay in Washington many matters bearing upon future action of her office will come up for discussion. She also has announced she will endeavor to perfect some arrangement whereby the salaries of assistant attorneys on her staff can be increased.

Berlin Note to Lloyd George Demands That Arrests of Germans by the Entente in Occupied Territory, Cease

Greeks Will Be Given a Free Hand to Drive Turks From Anatolia, But They Cannot Retain Lands So Captured

BY ASSOCIATED PRESS. —LEAFED WIRE TO TRIBUNE. —BERLIN, March 12.—The German Charge d'Affaires in London has handed to Premier Lloyd George a note regarding the entente extradition list, as it was announced today.

The note demands that the arrest of Germans in the occupied territories on charges similar to those enumerated in the extradition list shall cease, and that those arrested shall be delivered to German courts.

The release of Germans who have been detained in war prison camps is also asked for. The note finally demands that the entente should be delivered to German courts.

## GERMAN U-BOAT TRICK ON U. S. COAST MISLED DANIELS, SIMS CLAIMS

Raids in American Waters Intended Merely to Divert Attention from Critical Areas, Committee Hears

CONVOY LONG REJECTED, ADMIRAL SAYS

BY ASSOCIATED PRESS. —LEAFED WIRE TO TRIBUNE. —WASHINGTON, March 12.—A misconception of the problem of defense of the American coast from submarine raids was partially responsible for the failure of the navy department to act on repeated recommendations as to operations abroad during the early months of the war, the senate investigating committee was told today by Rear Admiral Sims.

The admiral said that during the first six months of the war he was told repeatedly that operations abroad would be dependent upon what could be spared from the adequate defense of home waters. This policy was adhered to, he said, despite his efforts to convince officials in Washington that it was the consensus of allied naval opinion, as well as his own, that the best defense for the American coast lay in offensive operations against submarines in the eastern Atlantic.

Admiral Sims said that early in 1917 the Allies were compelled by the submarines to adopt the convoy plan for protecting shipping and that on May 1 he "urgently recommended" that the United States give its co-operation. It was not until June 20 that Secretary Daniels replied he considered American vessels having armed guards were sufficient to protect themselves.

The admiral said he again stated his belief that arming merchantmen would not offer sufficient safeguard against submarine attack. On July 1 he received a cable outlining an entirely new plan of protecting merchant ships, formulated in the department, which he said was widely at variance with the British and French systems and which he called the department would be a "fundamental military error," resulting in "fatal assistance."

In answer the Navy Department submitted another plan, he said, and asked that he present it to the British Admiralty. He did so and was told that the proposal had been tried out by the allies early in the war without success and that the admiralty desired assurance of American co-operation in the convoy plan. The first convoy might sail from New York July 8.

About the same time Admiral Jellicoe wrote him expressing grave apprehensions that the success of the convoy system unless the United States decided to participate, the admiral stated.

Finally on July 22 the Navy Department accepted the convoy plan for troop ships and later accepted it for supply vessels. The admiral testified. Even as late as August 10, he said, he received messages from the department asking that the convoy system be adjusted, although "for four months I had been exhaustively explaining the system."

"It is very difficult for me to make clear to you now the separation in which I found myself almost constantly during the early months of the war," Admiral Sims said. "I reiterate, there was no question that these recommendations were right. The fact remains that they were virtually all adopted in the end."

**Dead in Storm Totals Twelve, Lists Growing**

Many Homeless in Missouri and Torrential Rains Add Flood Menace.

BY UNITED PRESS. —LEAFED WIRE TO TRIBUNE. —WILLIAMSTOWN, Ky., March 12.—Twenty-five school children were injured, several seriously, when a schoolhouse at Sherman, Grant county, collapsed during a windstorm today. Reports from Sherman stated that most of the buildings there were leveled by the storm. The gale was general over Southern Kentucky counties.

SPRINGFIELD, Mo., March 12.—Slowly recovering from the tornado which late yesterday visited death and destruction throughout the Turkey Creek valley, the citizens of the Ozark hills today refused offers outside aid. Verified reports from Branson, the center of the area devastated by the storm, placed the death toll at nine. Three are missing and believed dead. While three more were killed by the storm at Nevada, Mo.

Thirteen seriously injured are in an improvised hospital at Branson. Several of the dead were children. They were caught in the storm after being dismissed from school.

Ridgeway, Markey, 12, was hurled 1000 feet by the force of the storm and witnessed the drowning of his brother, William, who was caught in the storm. A dozen other small villages dotting the Ozark hills in Turkey valley were swept by the storm and it is from these that it is feared heaviest reports will bring news of additional loss of life.

White river was still rising early today as a result of the heavy rainfall accompanying the storm and a huge dam at Lawrence, at which is located a big electric generating plant, is threatened. A relief train sent out by the Missouri Pacific brought the injured and homeless to Branson, the largest of three relief points in the "Shepherd of the Hills" country.

**Auto Speeder Given Month in S. F. Jail**

SAN FRANCISCO, March 12.—J. C. Gray, 31½ Miller street, today was sentenced by Police Judge John Sullivan to thirty days in the county jail for violating the speed ordinance. According to Policemen Richard Hughes, Crowley was driving at an excessive rate of speed in Kearny street and also passing cars which were at a standstill, endangering passengers who were boarding and alighting from the vehicles.

That speeders who are taken before the Oakland police courts may expect no leniency when they submit to a jury trial, was demonstrated this morning in the court of Police Judge George S. Wells. Howard Blakely, who demanded a jury trial when he was arrested by Traffic Officer Britt February 25, was found guilty of violating the speed laws.

He will be sentenced tomorrow. Other speeders who were found guilty by the courts and fined this morning are: Lee Burkholder, Howard Blakely, Chester Farmer, Ambrose McKee, Thomas and Herbert Mayers. All were fined \$10.

**Esperanza Is Pulled Off Madagascar Reef**

NEW YORK, March 12.—The cargo ship Esperanza, which went ashore yesterday on Madagascar reef with 45 passengers and a crew of 106, has been towed into Progresso, Mexico, according to an intercepted wireless despatched here today. The message came from Captain J. R. Curtis, the skipper, who is presumed that tug sent out from Progresso pulled the vessel off the reef and into port.

## LODGE GIVES SENATE NEW ARTICLE TEN

Substitute Reservation Has United States Assume No Obligation to Preserve the Integrity of European

Complete Check Upon Action by This Nation Against Common Foe of League is Given Congress in Clause

WASHINGTON, March 12.—A substitute for the Republican Article X reservation to the peace treaty was introduced in the Senate today by the Republican leader, Senator Lodge, of Massachusetts. In general it follows the form of the draft agreed on several days ago in bi-partisan negotiations.

When the reservation was offered it was declared among the Republicans that the negotiations had been "smoothed out" to reach the treaty on that basis, but that final agreement had not yet been reached.

The Republican leaders planned to obtain no reservation. The compromise is as follows:

"The United States assumes no obligation to preserve territorial integrity or political independence of any nation by the employment of its military or naval resources or any form of economic discrimination or to interfere in any way in controversies between nations which are members of the League or not, under provisions of Article X or to employ its military or naval forces under any article of the treaty for any purpose unless in any particular case the Congress, which under the constitution has the sole power to declare war or to authorize the use of military and naval forces, shall in the exercise of its liberty of action by act or joint resolution so provide."

In offering the provision, Lodge said:

"I do this in consonance with what I have many times repeated to the Senate—that I feel justified in insisting on the defeat of the treaty on a mere question of wording. If I thought what I have offered affected in any way the principle of self liberty of action by act or joint resolution so provide."

The original Watson-Simmons compromise provided that the United States "assume no obligation to employ" military, naval and economic forces or its resources in preserving "other nations against aggression."

The amended form provides that the United States "assume no obligation to preserve" the territory and independence of other nations against aggression.

**Failing to Kill Wife, Husband Kills Self**

SANTA ROSA, March 12.—Mrs. Elsie Behringer, 35, by strange fortune escaped wounds today when her enraged husband, R. J. Behringer, 78, shot her through the head and died. When Behringer, who is a wealthy rancher, saw he had missed, he shot himself through the head and died.

Mrs. Behringer was returning from Santa Rosa in a spring wagon. As her husband fired she stooped over to set a brake. The bullet grazed her back.

**Japan Spending Sixty Millions on Aircraft**

PARIS, March 12.—Japan is spending \$60,000,000 annually upon aerial equipment, it was stated in a dispatch from the Japanese aviation delegation, who are in Europe seeking new ideas for the Japanese air forces. An order for 300 airplanes for the Japanese government has just been placed in France.

"The next war will be fought in the air," declared General Naokawa, chief of the Japanese aviation delegation. "The nation that is best equipped aerially will dominate both land and sea."

In the Cork district Inspector Molonagh was dangerously wounded in the head by a bullet from a revolver while exchanging shots with crowds which attacked him and another officer. One civilian was badly wounded. In Limerick, Constable Murphy was ambushed and shot and dangerously wounded. At Killybeggan, County Westmeath, 100 armed men raided Durrow castle, a private residence, for arms. The family was absent and only two servants were in the castle.

## Former Army Colonel Scores Army Bonus

WASHINGTON, March 12.—Members of Congress will support soldier bonus legislation in order "to get votes," Frank P. Keach of New York, a former lieutenant colonel in the inspector general's department, declared today before the House ways and means committee, which is holding hearings on relief legislation. "I consider it an insult for any person to say that I would spend two billion dollars of the public money to be elected to Congress," declared Chairman Fordney. The witness added that he was concerned over the predicted decrease in bond values. He objected to the suggestion of Representative Rainey, Democrat of Illinois, to place a tax on the 23,000 men who became millionaires during the war. "Initiative ceases when taxes become high and such an additional tax would be harmful," he said.

## PIERCE ARROW "The First Fifty"

TRUCK NO. 38.  
Well past the 100,000 mile mark, truck No. 38 now is in strenuous service in the mountainous country near Mt. Airy, Maryland, about 25 miles from Baltimore. It is used by O. T. Davis, flour miller, for hauling grain, phosphates and other farm necessities, giving dependable and economical service. The original worm drives the truck. Truck No. 38 originally was used by the Standard Ice Company of Philadelphia. It saw five years of service in ice delivery, giving remarkable satisfaction. Then for two years it was operated by the American Oil Company of Baltimore. In January, 1912, Mr. Davis purchased it and has been using it since. Extra Fifty Booklet can be had on application.

## WHOLE STOCK OF CLOTHES ON MAN TAKEN IN SOUTH

LOS ANGELES, March 12.—A month ago M. Gutierrez, escaped from the police here, after a running duel, when they attempted to take him on a misdemeanor charge. Today a patrolman saw Gutierrez emerging from a store and arrested him. When he was searched at the Central Station he was found to be wearing five suits of clothes, three suits of underwear, three silk shirts, two pairs of long silk stockings, two pairs of gloves, a new hat and new shoes. In his pockets were several neckties and numerous handkerchiefs. He was carrying three revolvers, a long knife and a piece of garden hose with a chunk of lead in one end. The police booked him as a suspicious person.

## PLAN BIG CROWD FOR TRADE MEET

One of the largest delegations to the Foreign Trade convention in San Francisco from May 12 to 15, with the intention to make it the largest will be set by the Oakland Chamber of Commerce. It is hoped to have at least 250 manufacturers, businessmen and bankers attend all their sessions. President Walter D. Cole will head the delegation. Plans are also under way to obtain for Oakland at least one special day during the convention on which the businessmen of the East and of foreign countries can visit the industrial sections and be entertained at a luncheon or dinner.

## POLICE ASK RAISE FOR ALL FORCE

Formal application for a blanket increase of \$25 a month in the salaries of all members of the police department was presented to Commissioner of Public Health and Safety P. F. Morse by a delegation of members of the department that called on the commissioner in his chambers yesterday. The present pay of patrolmen is \$140 a month, and the total increase asked for would bring the salary up to \$165 a month for the next fiscal year. Corresponding increases were asked for corporals, sergeants, captains, lieutenants, assistant inspectors and inspectors.

The committee, which was appointed by members of the department to wage the pay increase campaign following a meeting of all members of the department several days ago to arrange vacation periods, was comprised of members of all divisions and ranks.

The delegation was informed by Commissioner Morse that the increase asked for is impossible at this time, and until the first of the fiscal year, but that the request would be placed before the budget committee.

To make only one cupful of the usual table drink would cause considerable waste, but you can make one cup or ten cups of

## Beautiful, But Bitter Girl Is Man-Hater Great Story Signed

Marie Corelli's newest and greatest novel, "The Young Diana," has been obtained for exclusive newspaper publication in this territory by the Oakland TRIBUNE. Publication will begin Sunday.

Of this work, Dr. Frank Crane says: "It is a narration of life itself, baffling, mysterious, but ever fascinating." The story revolves around a cynical and bitter spinster, who by application of an elixir of youth, is suddenly made young and beautiful, worshipped and courted by the great men of Europe. But she remains a man-hater in spite of her physical allurements. What ensues makes up the most fascinating story of the year.

Do not fail to read the opening chapters—Sunday.

**WOMAN RUNS FOR CONGRESS.**  
PORTLAND, Ore., March 12.—Dr. Esther E. Lovejoy, prominent society and club woman and widely known because of her work in the "washed regions" of Europe, particularly Serbia and Armenia, has announced herself a candidate for the Democratic nomination to Congress from Multnomah county.

and consideration urged. Commissioner Morse declared today that the committee was satisfied with the answer, with the understanding that the increase would be provided for in the next budget.

"I am in favor of the increase of pay for policemen," said Commissioner Morse. "Policemen should be provided with a wage that will place them beyond temptation of petty corruption. Of all departments in the city government, I believe that this one should have first consideration in the way of a sufficient remuneration."

## OAKLAND MAN IS KILLED AT TRACY

TRACY, March 12.—Ben Garrison, a Southern Pacific engineer, was instantly killed last night in the local yards while backing his engine to the roundhouse after being relieved of his run. He was watching out of his cab window for a passing train projecting over the side of a box car pierced his chest, crushing his body. He fell back dead in the cab. Garrison was a former treasurer of the Brotherhood of Railway Engineers.

Bert Garrison, who was killed at Tracy, last night, was an Oakland man. For several years he had lived at Tracy. His wife was the daughter of Mr. and Mrs. Robert Wyllie of 688 Bonmore avenue.

Garrison, whose father lives here in an apartment house at Fifteenth and Castro streets, was a member of the Brotherhood of Railway Engineers, and had been in the employ of the company for a quarter of a century. He is survived by his wife, Laura Wyllie Garrison and two children, a boy and girl, aged 3 and 5 years respectively, who live in Tracy.

He also has relatives in Vallecito.

The funeral will be held tomorrow afternoon at 2:30 from Taylor's Undertaking Parlor and the remains will be cremated. The body was brought to this city this afternoon.

## SWIFT IS FINED ON EGG CHARGE

Judge Harry W. Puleifer today rendered a verdict of guilty charged and imposed a fine of \$50 on Swift & Co., packers, for violation of the pure food laws in the sale of eggs " unfit for human consumption" to Best & Co., bakers, at Telegraph avenue and Bancroft way, Berkeley.

The complainants testified that the eggs were used in the making of cakes and that they complained to the pure food inspectors as soon as they discovered the situation. The eggs were tested in the University of California laboratories and some of them found unwholesome.

Judge Puleifer said in passing sentence that he considered the law in question one of the most important on the statute books, as it vitally affects the health of all the people. He said violators need expert mercy from him. Attorney A. J. Woolsey, for the defendants, gave notice of appeal.

## Mrs. Irene Johnson is Seeking Probation

Mrs. Irene Johnson, alias Dorothy Nelson, nee Horgan, convicted of the robbery of the home of Mrs. Manuel Brown, 646 Haight street, Alameda, after she had been acquitted by a Martinez jury of the charge of holding up, binding, gagging and robbing, without aid, a Richmond photographer, has applied for probation.

Judge Lincoln S. Church has referred the request to Probation Officer Leonard Compton, who will report Monday morning. If the request is denied sentence will be imposed at that time. In the meantime Mrs. Johnson is in the custody of Sheriff Frank Barnes.

The girl declared, following the Richmond hold-up, that she took part in it to show her companion, Bert Garrett, since sent to San Quentin for the same crime, that she "was not a felon." Garrett took all the blame for both that and the Brown offense, coming from San Quentin to testify for her.

## CLUB WOMAN IN CONTEST FOR OFFICE

With Miss Theresa Russau, president of the Oakland Club, refusing to accept a second term and Mrs. Charles L. Taber assured succession, a warm election contest is centering in the first vice presidency for which Mrs. Frederick L. Adams and Mrs. A. E. Glasier are candidates. While it is conceded that Mrs. Adams has the backing of the present board, Mrs. Glasier claims the support of Mrs. Edgar L. Ormsby, past president.

Mrs. Nellie Nelson and Mrs. George Coolidge are opposing each other for the nomination of chairman of departments. Plans for a benefit card party next month and the mailing of nomination ballots to members have developed into an election issue. A demand for the list of 300 new members on Miss Russau by Mrs. Glasier, chairman of finance and its subsequent refusal on the grounds that the president did not have time to copy the names has given impetus to club gossip.

Nominations for candidates will

## Cigar in "Lady's" Lips Sets Berkeley Diners by Ears

She wore a dress that was low in front and almost absent in back and on her raven tresses there was set a picture hat of red. When she walked into the dining room of the Hotel Whitecotton in Berkeley last evening there was not a pair of eyes in the place that did not follow.

The lady in the red hat surveyed the others with disdainful interest. She let her gaze honor the menu. Then she lighted a long black cigar. Of course, there were horrified gasps, some hurried exits by other women guests and large quantities of conservation registers "by the overwhelming majority" who refused to see what was going to happen next.

A policeman came in, grabbed the woman and was about to take her to jail when Charles Mills, Berkeley really man, came to the rescue.

Two days ago Fred Dahken, a motion picture promoter, waged Mills and some others that he could dress as a woman and escape detection. Last night he tried it and succeeded so well that he collected the bet. Mills explained that when he finally did recognize Dahken he sent for the policeman that he might have a little revenge. So well did the policeman carry out the joke that Dahken put up a fight and admits he thought he was about to be taken to jail.

San Franciscan to Be Buried in South  
LOS ANGELES, March 12.—The funeral of D. J. Desmond of San Francisco, who died here yesterday, will be held tomorrow at the Roman Catholic Cathedral Chapel. It was announced here today. In San Francisco at the time of the fire Desmond headed the Los Angeles Relief Committee. Later he had charge of the commissary on the aqueduct construction here, and more recently he was interested in a Yosemite Valley resort company.

be made April 7. The election occurs May 5.

## S. F. SYMPHONY CLOSES SERIES

By ROY HARRISON DANFORTH.

The San Francisco Symphony Orchestra brought to a close at the University of California last evening its excellent series of four concerts there. The way for the return of Alfred Herz and his soloists was further prepared by last night's concert. Not only the revered Fifth Symphony of Beethoven, but the strongly contrasted other numbers were rendered with that keen perception of beautiful forms and adequacy thereto which we have come to expect of this group.

Albert Elkus' "Impressions From next Sunday's TRIBUNE.

a Greek Tragedy" had its first local presentation and in many ways made an impression upon its hearers. It is rather loosely constructed with no particular harmonic solidity, but it has an effectiveness based in novelty and in a daring use of instrumental resources.

Kajetn Attil, that excellent harpist, gave us further taste of his virtuosity in Maurice Ravel's "Introduction and Allegro," a distinctly Debussyan work, while the massive "Meistersinger" prelude massively played concluded the program. It is to be supposed that Professor Hume will arrange for next year such another symphony series. In public support, in artistic delight and in campus musical advancement the series just ended has admirably proceeded.

"Getting the Story Across" is the subject of the next Emerson-Los chapter on photoplay writing. Can

# CLOPERS AVERT CHURCH WEDDING

When parents and friends of Miss Bessie F. Werle of Oakland and Edward R. Berwick of Berkeley were notified this morning by the young couple of an elopement to Martinez plans for a large church wedding were set at naught.

Berwick and Miss Werle decided yesterday that they did not favor the more pretentious ceremony and so took the train for Martinez. With them went Leslie W. Werle and Miss Emily Werle, brother and sister of the bride, to act as witnesses to the ceremony, which was performed in the Episcopal church at Martinez. The parents were notified today.

Mrs. Berwick, who gave her age as 18 on the marriage license, is the daughter of Mrs. William Werle, 510 Forty-fifth street, Oakland, and Berwick is the son of Mr. and Mrs. C. C. Berwick, 1335 Hearst avenue, Berkeley. He gave his age as 21. Their engagement was announced some time ago.

# "BUMP HIM OFF," URGES ONE THUG DURING HOLDUP

SAN JOSE, March 12.—Forced to stand next to a cemetery fence with his hands over his head at midnight and listen to a debate by highwaymen whether they should "bump him off," was the rather hair-raising experience of Harry Rogers, a local businessman, last night. He was permitted to depart after he had been robbed of \$100.

While searching him the largest man of the quartet, who held the gun, suggested darkly that "dead men told no tales."

"Oh, let him live; he looks like a game guy," another declared.

"I've bumped off seven or eight in my day; what's one more or less?" the bloodthirsty one remarked.

# Prohibition Workers Depart for Japan

Miss Christine Tilling and Miss Frances Willard Wang, national Woman's Christian Temperance Union workers, have sailed on the Persia Maru for the Orient. They will go first to Japan, spending a month visiting the W. C. T. U. organizations in that country, and then will go to Shanghai, China. Miss Tilling has been lecturing in schools and colleges of the United States on scientific temperance for eight years, and has now been commissioned by the national W. C. T. U. to do the same work in China. Miss Wang is a young Chinese girl, a graduate of the Northwestern University, Evanston, Ill., whose ambition is to help the young people of her land to have the same chance in life that the young people of America have. Her first work will be interpreting for Miss Tilling.

## ADVICE ASKED ON WHARF EXTENSION

## SHAFTER AVENUE TO BE IMPROVED

Application by the 'Moore' Ship-building company for a war department permit to extend eight wharves in the inner harbor beyond the pier-head line in front of their plant, was turned over to the city council this morning from the corps of engineers of the war department for investigation and information.

The application of the Wells Baker company for permission to establish an undertaking parlor at 2150 San Pablo avenue was referred to the city attorney today at the request of Commissioner of Public Health and Safety F. F. Morse, for an opinion on the necessity for a permit. The application has been protested by members of the Durant School Mothers' club.

Protest against the proposed removal of the caretaker from Diamond park was filed with the council today and referred to the board of park directors.

Hearing of protests by property owners against the proposed improvement of Fifth street between Clay and Jefferson streets was postponed until next Tuesday. Protests against the improvement of Fruitvale avenue will be heard next Thursday.

Improvement proceedings in Fourth street between Jefferson and Clay streets, and in Montana street between Champion street and Peralta avenue, were ordered this morning when no protests were filed.

After efforts covering a period of almost twenty years to obtain the improvement, the initial steps were taken by the city council today to provide for the straightening of Shafter avenue along the right-of-way of the San Francisco-Sacramento Railway at the junction of Broadway.

A deed to a portion of the property necessary to the improvement was presented to the council today by Secretary Wilbur Walker of the Merchants' Exchange and was formally accepted by the council. The deed, which is the first turned over involving the needed property, is from W. F. Pryal.

Hearing of protests against the operations of the Union Ice Company, Filbert street between Twenty-second and Twenty-fourth streets, was set by the council today for next Friday morning, at the suggestion of Commissioner Morse. The action following filing of a petition by residents in the vicinity through their attorney, A. P. Stetwater, protesting against alleged noise and odors from the plant, and asking the passage of an ordinance taking the block in which the plant is located out of the industrial zone.

There being no protests to the application, the council today granted a garage permit to B. O. Johnson, Twenty-first street and San Pablo avenue.

Disappointed and embittered by an unfortunate love affair a woman grows old and sour. Then she is suddenly made young and beautiful and men worship her. But she is still bitter and cynical. What happens? Read 'The Young Diana' by Marie Corelli, in Sunday's TRIBUNE.

**COURT ORDERS MAN HELD**  
Superior Judge T. W. Harris today issued a bench warrant for the arrest of Frederick K. Tyng, who failed to appear in answer to an order to show cause why he should not be punished for contempt in having failed to make his alimony payments to his divorced wife. He is said to be more than \$100 in arrears.

**TRY TAKING PEPTO-MANGAN**

It isn't Sleep You Need, But a Good Tonic—More Red Blood.

Everyone gets run down occasionally. Sometimes it's because you get too excited, enthusiasm and happiness back again. Any doctor will tell you that your body has little power of resistance, and the danger of catching some serious disease is great. The "catching" of colds and flu is the first warning of a weak body. It is the work of these same red blood corpuscles to keep free from fatigue. Pepto-Mangan is a tonic that builds up the body and mind—almost a sure sign that your blood is getting better. It is a standard guide for a time. (For bloodlessness) It supplies the iron and builds up the body. It is the only one genuine Pepto-Mangan and the name "Gude" should be on the package—advertisements.

## FOUR NAMED ON FAIR PRICE BODY

C. W. Schmidt of Oakland, Mrs. Aaron Schlos of Berkeley, Dr. Agnes Fay Morgan and Prof. Jessica Falouto of the University of California were the Eastbay representatives named by United States District Attorney Annette Adams to be members of the San Francisco Fair Trade Commission which will hold hearings on profiteering complaints. H. Clay Miller was named chairman and declared in a statement that all cases of unjust dealing, outrageous prices and profiteering would be referred to the Department of Justice for prosecution after consideration by the executive committee of seven of the Fair Trade Commission. Following a talk with Mrs. Adams today, the executive committee of seven was named. Other members of the Fair Trade Commission are: John A. Britton, Ralph P. Merritt, J. O. Davis, Robert N. Lynch, W. H. Crocker, Charles W. Fay, Reuben Hale, E. S. Heller, J. H. Handy, W. C. Cram, A. B. C. Doherty, Gale Carter, H. Clay Miller, M. J. Brandenstein, James K. Moffitt, John W. Preston, R. H. Bennett, P. ## Western Rail Heads Marking Time and Studying New Laws

A general agreement to a policy of watchful waiting has been reached by western railway executives, as their attitudes were pressed today by both President W. R. Scott of the Southern Pacific Lines in Texas and Louisiana, and President Charles M. Levey, of the Western Pacific. Both expressed the conviction that until the Interstate Commerce Commission had begun functioning in its new sphere of influence and administration it would be impossible for the railroads to know how they were going to be fixed as would be borrowers. And preliminary to this try-out must come, of course, as they said, ascertainment of valuations and adjustments of rates.

"The public must realize, in the first place," said Scott, "that the railways of the country are precisely where they were five years ago as to equipment. For four years railroad material has not been made in this country for use here, but on the contrary, our steel mills and shops and factories of all kinds long ago were diverted to making needed war materials for the allies. Then we entered the war and redoubled effort was required to keep up with the demand. Our rail mills, car shops and locomotive works all joined in turning out products for use abroad, not an article of which is now available to supply our own pressing need."

**RE-ADJUSTMENT REQUIRED.**  
 "Under these circumstances we must, therefore, take up rehabilitation of plants at home, readjust, re-equip and recheck and then go ahead. And all this with reduced man power, on the one hand, and an increased demand on the other with less material and labor. America now than we had in 1918."

with less rolling stock and lack of credit, due to uncertainty of status under the new law, the herculean task of resumption of railway efficiency must be fought out. "But I am no pessimist," added Scott. "Patience on the part of the public, and maintenance of a spirit of mutual help and sympathy will straighten us all out in reasonable time. As the case stands now physical renovation and extension of rolling stock are imperative necessities. No Pullman equipment has been turned out for more than two years, only thirty-seven standard cars having been built during that time, while 800 were expected and contracted for. The same is true of the freight car stock. We simply haven't cars enough to transport the business offered, and can't get these without credit, obviously impossible with our earnings practically limited to 5½ per cent, while money for investment cannot be got for less than 6 per cent. It remains to be seen what we can have left to take dividends out to tempt investors with after we have made our 5½ per cent, taken our fifty-fifty divide with earnings above that to 6 per cent and secured what financial advantage we may beyond that by extraordinary business sagacity and volume of haulage. Just now everybody is traveling, and at highest rates, and plenty of business is offered."

**SILENT AS TO SERVICE.**  
 As to restoration of fast coast service Scott could say nothing. And regarding local plans of the Southern Pacific Company, for like reasons, he offered nothing. President Levey, of the Western Pacific, said plans of his company contemplated extension of terminal facilities at their pier just as soon as financial adjustments now being considered by the United States Railroad Administration could be satisfactorily adjusted.

"We must first adjust our claim of standard return compensation, now in dispute, and then try to get operation of the new law, in respect to what it will let us earn and enable us to borrow, before we can definitely announce a building policy," he declared. "We will, however, as soon as possible, undertake extensive addition of facilities for warehousing, docking and transfer on our Oakland terminal properties, particularly where that city took away from us lands then held but not improved because of the receivership which then handicapped the lines. You may say, however, that the Western Pacific will be in it with the fast ones on extensions and rehabilitation when government restraint is removed."

## E. E. Crawford Made Bank Credit Manager

Announcement is made of the transfer of Manager E. E. Crawford, of the R. G. Dunn Commercial Agency, to become manager of the credit department of the Central National Bank. The change will take place March 15. Crawford will have management of credits and devote some time to the matter of new business of the bank. His appointment is dictated by the growing business of that institution and is in conformity with present day practice among all large banks, of maintaining a distinct credit organization under managerial charge.

Crawford is president of Lions club and active member of the Chamber of Commerce. He is also associated with the Athenian-Nile club.

Crawford's place will be filled by F. O. Werth, until now Sacramento manager for Dunn's. Crawford is a Georgian by birth, the son of a Georgian, and began his business career, in association with his present employers in 1901. In various fields of that agency he filled different positions, finally assuming charge of the city department of the Los Angeles office for some time prior to 1918. At the beginning of which year he became manager of the Oakland office.

## Prisoner Disappears From Melrose Jail

Search has been started by the police for Ira Morris, colored, who escaped from the Melrose police station last night. Morris was being a sentence in the city prison on charge of petit larceny and was transferred to the Melrose station several days ago to work in the police garage. He disappeared last night while washing cars.

## Be Careful What You Wash Your Hair With

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle. The best thing to use is Multifid coconut oil shampoo, for this is pure and entirely greaseless. It's very cheap and heats anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, looking, bright, fluffy, wavy, and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.—Advertisement.

## The Owl Coconut Oil Shampoo

Its purity is evidenced by the fact that the edible quality coconut oil is the principal ingredient. This accounts for the creamy lather and easy rinsing feature. It also explains why the hair is left so soft and silky. 16-oz. bottles, 25c; (about 10 shampoos).

## Co-Lo Hair Restorer

Brings back the natural color to gray and faded hair. Perfectly harmless. Contains no lead, no sulphur. Is as clear as water and will not wash or rub off. Easy to apply. This is Prof. Austin's premier preparation which is varied for the proper treatment of all shades of hair.

**Muvver. what makes you so cross ?**

Very often the answer is that "muvver" suffers from backache, lumbago, or rheumatism.

Those of us who are past middle age are prone to eat too much meat and in consequence deposit lime salts in the arteries, veins and joints. We often suffer from twinges of rheumatism or lumbago, sometimes from gout, swollen hands or feet. There is no longer the slightest need of this, however, as the new Prescription of Dr. Pierce's called

## ANURIC

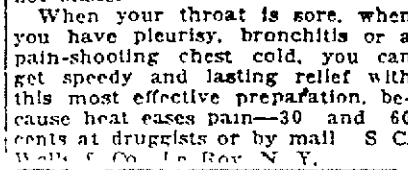

gives immediate results as it is many times more potent than lithia in ridding the impoverished blood of its poisons by way of the kidneys. It can be obtained at almost any drug store, by simply asking for Dr. Pierce's Anuric (anti-uric-acid) for kidneys or backache. It will overcome such conditions as rheumatism, dropsical swellings, cold extremities, scalding and burning urine, sleeplessness due to constant arising at night.

If you wish to give "Anuric" a trial send Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., ten cents for a trial package.

SAN FRANCISCO, CALIF.:—"I have used Doctor Pierce's remedies in my family for fifteen years and have found on every occasion that they gave satisfactory results. Recently I was troubled with my kidneys and my back constantly pained me. I took three packages of Doctor Pierce's Anuric Tablets which removed all pain and cleared up conditions. I advise every one to give Doctor Pierce's remedies a fair trial."—Mrs. E. E. E. 422 Brannon Street.

## YELLOW MUSTARD FOR SORE THROAT, TONSILITIS

Old fashioned remedies are often the best. Yellow Mustard, in the form of plaster or poultice, has been used for generations for soreness, inflammations, congestions and swellings with most excellent results, but—It blistered. Heat eases pain and Begy's Mustardine, made of pure yellow mustard, together with other pain relieving ingredients is just as hot, but quicker, cleaner and more effective and cannot blister.

## FOLEY CATHARTIC TABLETS

Act promptly. Never disappoint. Mild and gentle in action. Do not gripe or nauseate. No active after effects.

Mrs. Sweet Clay, Antio, Va.: "I had a bad headache and took two Foley Cathartic Tablets in a short while, my head stopped aching." For Sale by Osgood Bros. Drug Stores.

The Best Laxative.  
 "My sedentary habits have necessitated the use of an occasional laxative. I have tried many but found nothing better than Chamberlain's Tablets," writes George F. Daniels, Harwick, Va. # HOUSEWIVES' LEAGUES ON WAR BRINK

With a second Housewives' League in Oakland organized in the council chambers of the City Hall this afternoon, and a second Berkeley Housewives' League scheduled for organization on Wednesday of next week, both of which are sponsored by the State Federation of Housewives' Leagues, with San Mateo organizing to affiliate with the original Housewives' Leagues in Oakland, Berkeley and San Francisco, which refused to join the present State body, war clouds still hover over the ranks of those who have been recruited to fight the high cost of living.

Mrs. W. T. Cleverdon maintains the college city is eager to support a new league. Mrs. Lester Barratt, president of the original league, denies that there is any indication that her organization is criticized. To unite the strength of the leagues which did not ratify the State Federation of which Mrs. E. P. Scanlon of San Francisco is president, a new convention to organize a California Consolidation of Housewives' Leagues is called in San Francisco next Thursday.

Charles B. Johnson, State sealer of weights and measures, was a speaker this afternoon before the Berkeley Housewives' League, of which Mrs. Barratt is president. A special investigating committee offered a cash-and-carry system as a means of cutting down high prices. Cans of milk were discussed. Resolutions are the latest commodity to be placed on the boycott list of the Alameda Housewives' League.

# FORESTERS PLAN CONVENTION HERE

Nearly three thousand delegates and friends will attend the thirty-first annual convention of the Foresters of America to be held in Oakland from May 7 to 12. Plans for the entertainment of the visitors are under a committee headed by Meyer F. Lewis, and which includes Judge William Donohue and Judge James G. Quinn as honorary chairmen. Several social affairs by the men. Business sessions of the convention and drill team competitions will be held at Hotel Oakland and several social affairs are being planned.

Vice-chairmen of the committee include: J. L. Vargas, H. Loeffler, Paul Weinmann, Judge Richmond Joseph, E. Barrows, William Reese, N. Berni, G. Grazzini, A. F. Linde, representing each of the courts of the order.

# \$10,254.50 ASKED FOR SON'S DEATH

James Fish, 2744 Elmwood avenue, Oakland, has filed a suit for damages against Ira Rodifer for \$10,254.50 as compensation for the death of one of his sons, Lloyd, and for injuries sustained by the other, Val, in an automobile mishap last January when Rodifer collided with the Fish brothers' motorcycle at College and Alameda avenues.

As the result of the accident Lloyd Fish died at Pablosa Hospital and his brother, Val Fish, was in the hospital for several weeks incapacitated.

The father alleges in his complaint for damages that the fatality was the direct result of Rodifer's carelessness. He charges that Rodifer turned his car at an acute angle at the street intersection and caused the collision.

# AMBULANCE AT 60 MILES LOSES RACE WITH STORK

The motor ambulance of the Alameda county hospital was making 60 miles an hour at 1 o'clock this morning but it was not going fast enough to beat the flight of the stork. As a consequence the exact birthplace of the bouncing boy that was born to Mrs. Ferdinand Nelson, 480 Twenty-fifth street, Oakland, cannot be fully determined.

It is known that the child was born in Alameda county, but whether it was Oakland or San Leandro is open to conjecture, because of the speed maintained by the ambulance. Both mother and child are doing well today. This is the seventh child to grace the Nelson home.

This is not a record breaker for the county hospital ambulance, however, for three years ago twins were born in the vehicle while en route to the hospital.

# Osteopathic Clinic Gives New Methods

An all afternoon clinic was held in the osteopathic clinic rooms in the Bacon block here today. Dr. C. J. Gaddis, of Oakland, editor of the Western Osteopath, conducted the clinic. Special osteopathic technique for treatment of fevers and other acute diseases, particularly influenza and pneumonia, has been demonstrated by Dr. Gaddis and he demonstrated it to local physicians. Dr. Gladis will soon tour eight western states, through which he has established a post graduate clinic circuit.

**CELEBRATE ANNIVERSARY**  
In honor of their thirteenth wedding anniversary Mr. and Mrs. Frank Maestratti entertained a large number of friends at their home in East Oakland yesterday. Musical selections by Miss Doris Ginzley, Leola Maestratti, Leona Fleckenstein, Dorothy Jurlington and Frank Maestratti, contributed to the enjoyment of the occasion.

"To any woman who is alone in the world without claims to her time or affections," read an advertisement in a Geneva newspaper, placed there by a scandalous who wanted to experiment with an elixir of youth. Read about it in "The Young Diana," in Sunday's TRIBUNE.

# MY HEART and MY HUSBAND

by ADELE GARRISON

(Continued from Yesterday.)

"The very thing!" she exclaimed. "Now, Milly, don't worry a bit more. Just stick up with needles, thread, scissors and thimble and clear out of here. You've got enough on your shoulders without thinking of my case soon, and if you'll have somebody bring it up that's all I'll ask. We shall get along beautifully."

"Oh, you don't know how relieved I am," Mrs. Stockbridge smiled after she had supplied us with the implements for which we had asked. But her face had the crafty expression of a cat.

Mrs. Holcombe, still with my dress over her arm, stepped to the door, through which Mrs. Stockbridge had just gone, and noisily slipped the bolt. Then she turned to me, her fine eyes alight.

"There!" she said, "now we can find out what is best to be done. Paugh! that woman is like a moral miasma. I feel like opening the windows."

She acted as she spoke, and the clear, crisp, refreshing air stole in, fluttering as it passed the atrocious dressmaking creation which Milly Stockbridge had laid upon the bed.

"Oh, you atrocious!" Mrs. Holcombe anathematized the thing, with a mocking laugh. "You'll not make your appearance down-stairs tonight unless Milly herself repents and wears you. Come, let's go over this gown of yours, Mrs. Graham. I have a theory that the worst of this stuff can be brushed off, and that then we can perhaps rip this part of the drapery, unless it, and turn it inside out."

"It isn't just the same on both sides, but I don't believe it will be noticed so very much, and anything will be better than wearing that other thing."

Her face expressed doubt, however, of the practicability of her scheme, and well it might, for the white crepe of my gown was embroidered with gold threads, and the appearance of the turned panel would be distinctly "wrong" if I were to turn it inside out.

Luckily, however, I had a surprise in reserve.

"We won't have to do that," I said, confidently. "When I get through with that dress, if you'll help me, no one can possibly guess it was ever hurt."

She looked at me with twinkling eyes.

"If you don't tell me what you mean this instant!" she said ominously, and I obeyed her.

"Several years ago I tore a filmy

gown badly in a theater—my thoughts went back for a swift retrospective moment to that night of the first play Dicky and I saw together after our marriage, "and I would have given a good deal for a piece of the goods when I was mending it in the dressing room of the theater. Ever since then—I suppose it's fussy—but I never wear an easily torn gown without having at hand a piece of the goods."

"And you have it here?" Her voice was gleeful. The next instant it shadowed. "If it was in your dress case something's happened to it," she affirmed soberly. "Milly'd never overlook a bet like that."

"But it isn't in the dress case," I returned. "Luck evidently was with me this morning. I forgot to put it in the case. At the last minute I remembered it and tucked a length of the goods in my opera bag. I took up my opera bag as I spoke, opened it and drew out a long filmy piece of

the delicately embroidered stuff of which my gown was made.

"What colossal luck!" Alice Holcombe breathed. "It will be the simplest thing possible to make another panel just like this and put it in. Here's the time we put one over on little Milly. But we mustn't let her get the slightest inkling of what we're doing, and while she's perfectly satisfied that you're doomed to wear her gown, yet she won't be able to resist the temptation to come back to gloat a bit. I have it. Slip off your suit and get into this atrocious gown. In the meantime, if you'll show me where, I'll rip that stained panel from your gown and hang the gown back in the closet. It will be easy to hide the small panels if she comes in, and I'll also take a few slashes in her old dress, pretending to fit it to you. It will serve her right as well as mislead her if she comes in."

"What do you suppose she did this particular thing for?" I asked, when I had invested myself with the salmon-pink atrocity, which made me present a decidedly unattractive appearance. I gave a little shudder at what Dicky would have thought if he had seen me enter the dining room in that particular guise.

"Milly's no fool," she said. "Ken wouldn't let her wear this thing, which represents her general taste in dress, and I happen to know that the white lace gown she speaks of looks like a very poor country cousin beside this beauty. She has just sense enough to realize how the two gowns would look if contrasted, also that the thing you have on, while it wouldn't be so bad with her fallow face and dark hair, would be mighty unbecoming to you. Now let me slash that a bit."

She was on her knees beside me when a peremptory knock sounded on the door.

(Continued Tomorrow.)

"I don't give my consent." "But, father, I tell you he has enough money for us to start on." "What does that mean? Taxi fare to the station?"

Edith—Jack's been calling on me for six months. Don't you think it's time he proposed? Maud—Oh, no; it was nearly a year before he proposed to me.

Molly—Our doctor told me today that hammocks are not good for one. Cholly—He's right, dear, they're not good for one, but they're all right for two.

Rev. Snickers—And your daughter, Mrs. Bunks—the one that was going in for nursing—how is she? Well, I hope? Mrs. Bunks—Splendid, thank you, sir. Last we heard from 'er she was going 'up for 'er final contaminations.

Analyze the washing machine you buy---

Be more than a purchaser—be an appraiser. Analyze thoroughly the washing machine you intend to buy. Judge value by detailed specifications—not by expectations.

Be sure of the operating principle; learn whether the cylinder or dolly type will best serve your requirements; know the power of the motor; the transmission; the quality of the materials used; examine the wringer—the swinging type is best, but there are other things to know about it. What is the capacity of the machine, and the cost of operation?

Two washers may look alike, and made to serve the same purpose, but be vastly different when put to use. Buy only the best—it is cheapest in the end.

## THE PEACE ARMY.

Positive indication of the size of the regular army under the reorganization bill now being considered in Congress is given in the vote of Wednesday on questions of reducing the estimates submitted by the military affairs committee. Efforts of the opponents of the committee program were defeated by votes of three to one. While final action has not yet been taken, it is apparent that the House is in favor of an army of about 300,000 men and 17,820 officers.

This is only 100,000 more than authorized by the national defense act of 1916. In a general way it agrees with the recommendations of General Pershing on what would constitute a peace time military force. But it is specially noteworthy that it differs substantially from the recommendation of Secretary of War Baker and the general staff for an army of nearly 550,000—it is but little more than half the size of the force urged by Mr. Baker.

The military affairs committee, and the House in so far supporting its program, have done well to give greatest weight to General Pershing's plans. The commander of the American Expeditionary Forces had the great lessons of the war at his command. Yet he knew America and her manhood and was not frightened into a decision that a great paid professional military establishment must be set up. In the face of numbers is concerned, the war has had no influence upon his program. And that program seems now in a fair way to become the adopted plan.

Considering the large territory, the extent of coast lines and reasonable coast defenses under a policy of rational peace time preparedness, and the several extra continental territories and the Canal Zone under the protection of the Federal government, an army of 300,000 is not, as The Tribune has previously asserted, a militaristic venture. After the essential permanent garrisons are provided, there remains only the smallest nucleus of a field organization for a possible war campaign.

The enlarged officers corps, is of course, a provision against such a shortage of trained officers as was endured in the last war during the early period of training and organization. But the enlisted personnel is not adequate to wage any war, even with Mexico.

In view of the need for an increased coast defense system, especially on the Pacific Coast, the proposed army program is reasonable and should not be much reduced, if at all, by subsequent action in the House or in the Senate. It is a safe and wholly American program in that it seeks to serve only actual peace time needs.

## BUT THE PRICE OF INFAMY!

Seven months after the sinking of the German fleet in Scapa Flow there was enacted in Frankfurt-am-Main a two-act drama in which the whole thing was done over again to the accompaniment of "battle-thundering applause." In the staging of the dramatic incident that for so long attracted the attention of Allied statesmen, and in its reception by the typical Teutonic crowd, was expressed the popular German opinion of the world's greatest act of scuttling.

The first act of Reinhard Goering's play represents the deck of a German dreadnought with sailors cowering in groups and muttering lamentations. At a given signal they stand at attention and sing a dirge and then the glare of a British searchlight is thrown on "a file of estate, despairing, longing faces." Von Ruter, the German admiral, who is shown as brooding over his responsibilities to his fatherland, gives the order to sink the ships.

In decided contrast is the next act where the scene is the deck of a British flagship during a celebration of the victory. Joyful sailors sing "It's a Long Way to Tipperary" and at the height of their rejoicing notice that the German ships have disappeared. An excited and flustered British admiral receives his rescued "colleague" and is even made to punish with "noblest contempt" one of his men for having spoken disrespectfully of the Germans.

The play was put on in a season in which the management had lost heavily on Schiller and not only made up the loss but established new records for attendance and receipts. It is said no drama has been given approval so noisy and prolonged.

As evidence that opinion of the scuttling in Germany is not all with the "battle-thundering" applauders, the following is taken from a comment by Bernhard Diebold, one of the most widely recognized critics of the German stage:

"The idea in this latest effort of our talented Goering is unknown. The 'beautiful deed' which sent 300,000 tons of ships (or the equivalent in indemnities) to the bottom of the sea to no purpose is ill-adapted to the historical drama. But his lambies are faultless and of illumination, heroism, uniforms, songs and cries there was no end and the audience applauded like mad. Let us not, however, overestimate the vitality of this drama. It's a long way to Tipperary."

But so long as the house is full of loud-lunged worshippers of uniforms and illumination what should the manager care for the meaning of Goering or the words of Diebold?

## INCONGRUITY.

A man who persisted in smoking cigarettes on the rear platform of an Oakland street car has been sentenced to thirty days in jail. Lost it he thought that this is an attempt to belittle his offense it may be added that he "sassed" the conductor and blew rings of smoke in the direction of the coin box. There was no delay in the trial. The man was taken before Police Judge Herbert D. Wise and the facts were spread to public gaze. Not an attorney requested a continuance nor were there any letters from influential relatives in other cities.

Two men have been accused of killing local citizens on the streets of Oakland and Berkeley. They are said to have driven automobiles in defiance of speed laws and they have been arrested. Neither is in jail and, so far, the only inconveniences either has experienced have been the occasional trips to the police court where the cases have been continued.

If the man who smoked on the street car platform has been furnished with the makings he is probably blowing reflective rings at the ceiling of his cell.

## THE HARD ROLE OF GIVER.

One may always bank on Los Angeles running true to form. Once the word reached that city that California delegates to the democratic convention will be asked to pay \$250 each for the State campaign fund there was a flutter of apprehension that found expression in the Times.

"We can't imagine a Los Angeles man doing that sort of thing," said the paper, "Seems as if he ought to be paid for the sacrifice and hardship."

The Times is right: one can't imagine a Los Angeles man doing that sort of thing.

A promise of increased production, continued prosperity and an indication that some resulting reflection in lower prices will be seen is contained in the announcement that during the month of February, there were incorporated 945 new enterprises with an authorized capital of over a billion dollars. In the same period a year ago the total was \$323,635,000, when considerably less than five hundred new enterprises were formed. The returns include all lines of business, or industry and are significant for their suggestion of the hopeful sentiment that prevails concerning the future of general business.

San Jose's eagerness to catch up in her educational needs is shown in the six-to-one victories for high school and grammar school bond proposals. The high school, eight concrete buildings, with the site, will cost \$400,000 and \$300,000 will be spent for grammar schools.

The former crown prince is learning how to box. He starts off with the advantage that no one will be able to hit him on the chin.

## HELPING GERMANY.

A few months ago it was proposed that Germany should be punished by a measure of increasing its military punishment. Now the Supreme Council is considering economic assistance to Germany, in kindness to the Allies more than in tenderness for Germany, we hope. Hate is a more difficult policy for the Allies than for Germany, and there is much danger that Germany may escape something of what it ought to suffer. There should be no sentiment in deciding whether Germany should receive a loan of cash or goods in order to enable it to endure its sentence to hard labor and discharge the obligations it has assumed to pay for some part of the damage it has done. Business considerations should control, not political sentimentality. The assistance should be given only on terms regarding reparation, and on satisfactory security.

Even a criminal is entitled to hear his sentence and to begin to serve his term so that he may count on his release. There never will be a better time to fix the terms of Germany's sentence than now, when it is being served. The question of security is difficult, but not beyond solution. The war debt of Germany makes its Government securities nearly worthless and the reparation securities must take precedence of the war debt. But there ought to be no difficulty about making the advance of materials a lien on the goods made from the materials.

France has a right to be restored and sustained as well as Germany, or rather more so, and the aid given to Germany might be restricted in some degree to use in reconstructing the regions Germany ravaged, to help work and duty Germany has already bound itself. The support of German workers on this undertaking is aid to both Germany and her victims. The suggestion comes from British sources, and that gives an opening to suggest that England might set the example of helping Germany to help itself by restoring in German commerce some of the shipping taken from Germany. There is a constantly increasing supply of shipping, and England and the allied nations might profit more by selling existing shipping to a new owner, than by using the deteriorated vessels in trade. England's suggestion ought to be more acceptable to the neutrals than to the belligerents. The neutrals have borne the least share of the war's burdens, and have profited disproportionately by the war. They are further enriching themselves now by regular and irregular trade with Germany and with other nations on Germany's recovery from prostration. If the neutrals do not lead the way, they are blind to their own interests and should be persuaded to do their duty, if others are to do theirs.—New York Times.

## NOTES and COMMENT

Owners of automobiles should cheer up, for something is yet to come. Further increase in the price of gasoline has been predicted by delegates to the National Petroleum Congress, recently convened in Chicago. Justification is cited in the fact that crude oil is selling at \$3.50 a barrel, while a year ago it was selling for \$2.25. It seems to be just one thing after another with an owner of an automobile.

As a general thing nobody would envy an outcast, but the one of the Astor family is different. Property that he left has just been sold for \$1,114,000. He married contrary to the ideas of the clan and they gave him a million or so and told him to shift for himself.

That is an apt saying that wood alcohol and the omnia board are in the same class—both dangerous spirits. Though there is no danger from either if they are let alone.

We are advised that a Berkeley expert predicts that there will be "plenty of water." It doesn't say whether he speaks from a prohibition or an agricultural standpoint. There is a difference.

In a despatch it says that "3½ percent whisky is urged in New York." How urged? Nothing goes with regard to whisky by mere urging, even in New York.

Kentucky is furnishing the big wet argument, but New Jersey is furnishing the candidate, or at least trying to furnish him. It is certainly furnishing the perturbation.

Despatch tells of Mexicans slaying two Americans—but such despatches are no longer news. News is the unusual thing that happens.

The disadvantage which the rent profiteers labor under is that he can't lay it to intangible persons and causes that the victim is unable to run to earth.

It is not certain, but it is likely that the young business man whose picture appears in the news columns with an account of his worthy activities at the side, directly underneath, in black letters, the words, "Master Criminal," heading another matter altogether, may not think he is exploited to the best possible advantage.

Admiral Sims, in charging that failure of the navy to cooperate cost 200,000 lives and fifteen billions of dollars and that the blame may be laid to Secretary Daniels, cannot be accused of ambiguity, however high he seems to have got his figures.

The considerable number of cases of several had automobile crimes that happened in quick succession a week or so ago appears to be blowing over, at least postponement and reduction of half character of proceedings in the most aggravated case.

The former German crown prince, according to a despatch, has learned to use his fists. There ought to be some way in which he can fight, though that way he will find to be considerably different from the one he used to follow in the despatches.

## SPIRIT of the STATE PRESS

Some people's idea of a rest is to go to the nearest big city and doze automobiles on a thickly congested street.—Watsonville Pajaronian.

About twenty Sonoma county dairymen attended the dairy bull sale at the University Farm, Davis, last week. Ten bulls were purchased. The bulls are highly bred and their ancestors have official records as big as those of prize fighters. The day of a scrub bull is almost over in Sonoma county.—Cloverdale Revelle.

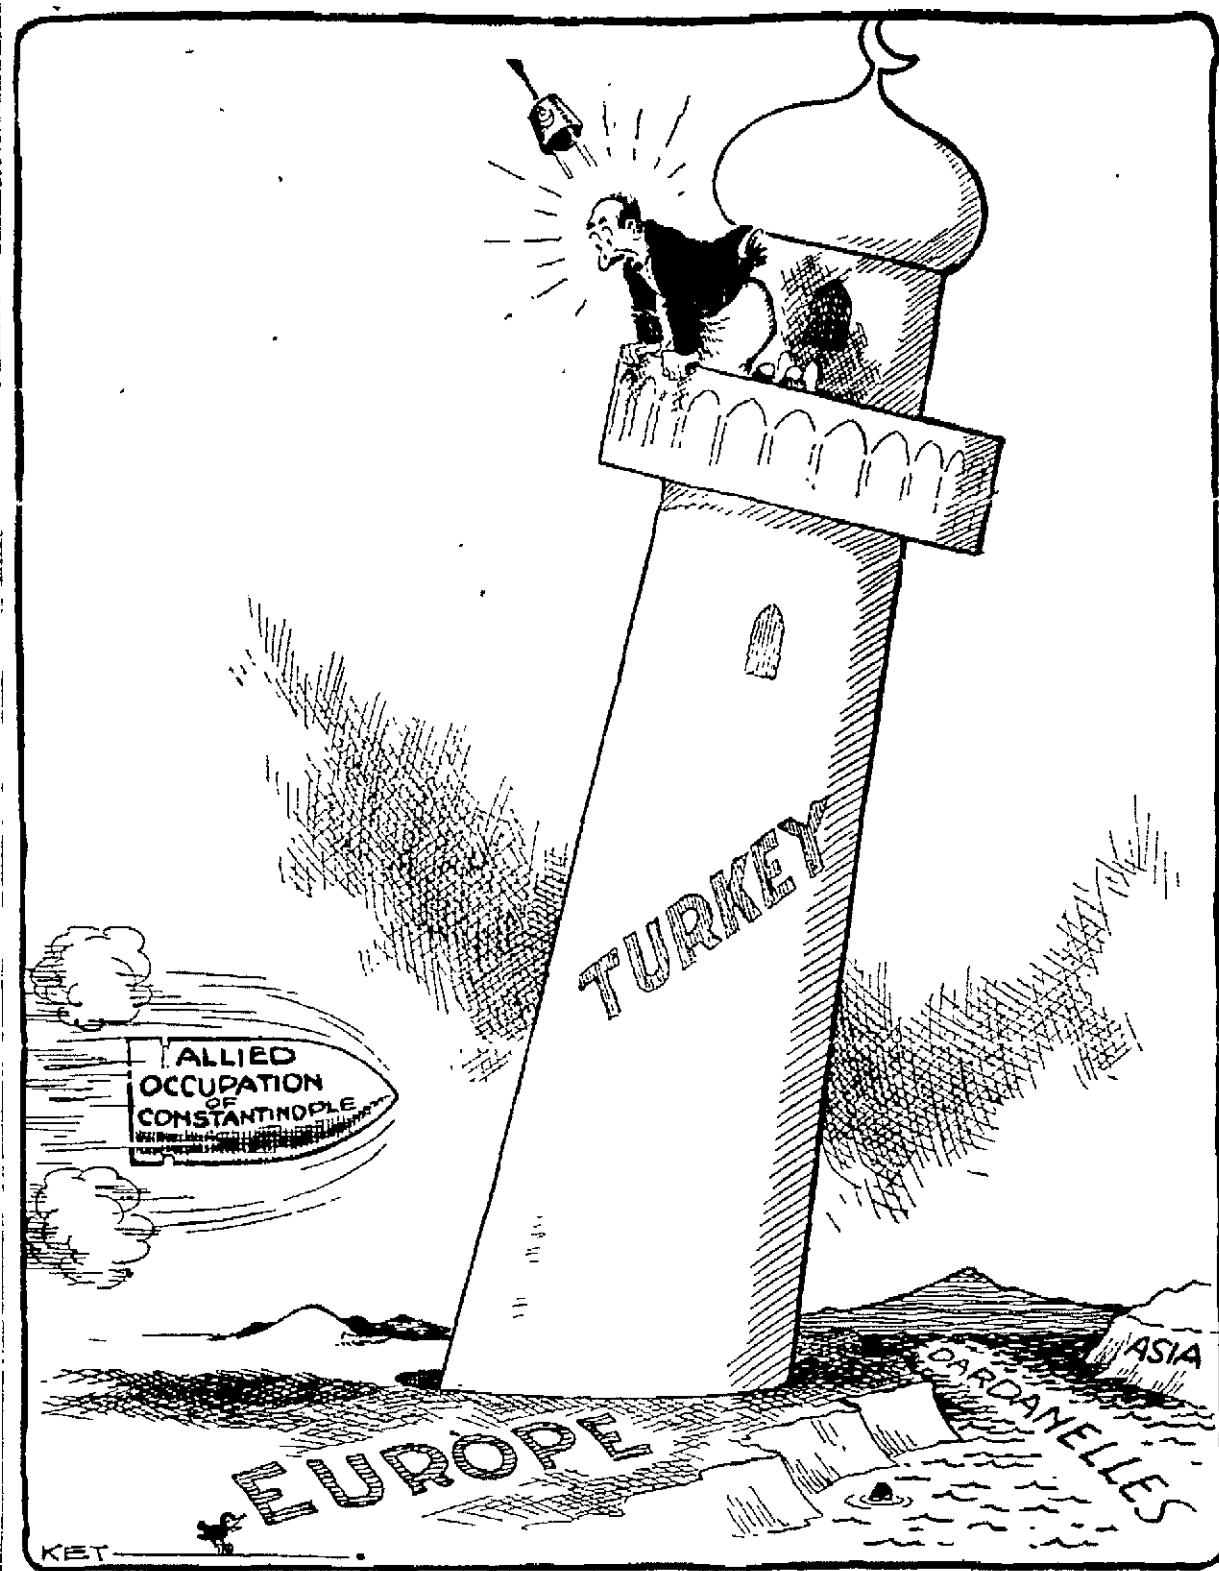

Franklin K. Lane signified his retirement from public life with a characteristically picturesque and thoughtful utterance on the inefficiency of governmental organization in Washington. He commended public officials for their intelligence, honesty and devotion. But he condemned the whole system as incorrigibly unworkable. He found too much red tape, too little authority and responsibility, too much passing the buck, too much of each of which should determine policies in more administrative details, too little system, too little co-ordination, too much politics and too little efficiency.—Fresno Republican.

The big runs of squid that are daily taken on San Pedro are causing considerable speculation relative to the albacore and tuna fishing for the coming season. Even the omnia board is being used by the fishermen, who are now predicting that the season of 1920 will be the greatest albacore fishing season in the history of the tuna (albacore) canning business. The fishermen claim that 1916 was a big year for squid and for albacore, and that blue-fin tuna will be much scarcer in 1920 than they were in 1919, which was an excellent year for that variety. The commercial fishermen say that the sardine catch has already become depleted.—Catalina Islander.

Fifteen years ago the automobile manufacturer who advertised in the daily paper offered a commission of 10 percent of the price of the car to the person who could sell the most cars in a given territory. Today one person in every four owns an automobile. Every owner is a potential buyer of a new car. Every owner is an incentive to non-owners to take to motoring.—Woodland Democrat.

The town of Oakley is to have a bank, if the plans of J. A. Anderson of San Francisco mature. He has been working in that section for some time, and it is understood that he has already secured \$10,000 from prominent business men and farmers, as a solid foundation for such an institution. It is understood that the Bank of Italy is interested in the project to the extent of assisting in its organization and subsidizing a good black of stock.—Brentwood.

## THE MAKE-UP OF THE RECORD

What is the subject matter of the bills introduced in Congress on the first day of the new session? The Congressional Record of Senate proceedings under the heading of "Bills Introduced" reveals the questions of mighty import concerning which there is the greatest interest as displayed by the measures put forward. Fifteen of the bills were for granting pensions, ten for increase of pension, five related to claims against the government.

But industry was not wholly overlooked. Senator McNary introduced a bill to encourage the production of chromium ores. Amusement had attention in Senator Sterling's bill "relating to tax on season tickets," but whether to opera or baseball the title said not.

Very properly the forward-looking Senator Gronna, January 16 well in mind, sent up a bill "to prevent the importation of unwholesome tea."  
What wood alcohol is to the cup which, unwholesome tea must be to the cup which cheers. An interesting day in the Senate, even if some things of general interest were not introduced in the contents of the bill basket.—New York Sun and Herald.

## "Mother" Jones Will Strive to End Strike

"Mother" Jones, woman leader of labor union activities for the past thirty years, arrived in Oakland at 5 o'clock this morning from Los Angeles and was met at the Sixteenth-street station by a delegation of local labor men who escorted her to

her apartments in the Hotel Clark in San Francisco. She will stay in the bay district for some time and says she intends to work for a settlement of the shipyard strike. No definite arrangements have been made for her activities here as yet, according to V. C. Doanlaugh, secretary of the Alameda County Metal Trades Council, who headed the reception delegation this morning.

## Man, Hurling Ten Feet by Electricity, Lives

CHINO, March 12.—Hurling ten feet by an electrical shock of 15,000 volts, W. H. Hewitt narrowly escaped death here today. Hewitt was leaning against a barbed wire fence when the high voltage wires broken by a falling tree, charged the wires of the fence.

## MAN'S REFUSAL TO OPEN MAIL COSTS LAWSUIT

Judgment for \$108.55 was given to Harry Albee by Superior Judge T. W. Harris from Frank Buck today because of the latter's failure to open letters Albee sent him in which was money to make payments on a certain mortgage. Albee testified Buck had agreed to turn over money sent him for that purpose, but failed to do so and the mortgage was foreclosed, causing him a loss in the amount of the judgment. Buck's defense was that he had not opened Albee's letters in quite a while and did not know there was money inside. Judge Harris said it was a good plan to determine the contents of letters and advised Buck to cultivate the habit. He said it was not Albee's fault that Buck had no curiosity concerning the mail sent to him by Albee.

## Conway Would Lead New City Band

Patriot Conway, conductor of one of the Panama-Pacific Exposition bands in San Francisco and leader of an orchestra that has appeared on numerous occasions in this city, today made application by letter from Miami, Florida, to Mayor John L. Davis for the position of conductor of the proposed municipal band, for which plans are now under way. R. C. Durant has offered to furnish \$50,000 out of the \$100,000 necessary to support the band.

## FIGHT DARE IN WIELER CASE GIVEN

A boxing match between District Attorney A. A. Rogers and W. B. Cleary, defending John G. Wieler, on trial for criminal syndicalism, was narrowly averted just at the noon recess today, after Rogers dared Cleary to go out in the hall and fight after the latter had intimated that the prosecution was going to coach a witness. The set-to was averted when Cleary finally declared that he did not mean any member of the district attorney's office but that there were others interested in the case who might do so. This was said while Inspector Fenton Thompson was on the stand testifying to his arrest of Wieler on June 12.

The heated argument arose over the question as to whether Inspector Keefe had testified that a satchel in which he found literature at Wieler's home had Wieler's initials upon it. Rogers claimed he had and Cleary denied it. The testimony was read and it showed that Keefe had said he did not know just what the initials were. Rogers then said he would have Keefe called back to the stand.

"You can take him out and coach him and bring him back," said Cleary. "Do you mean to imply that any one connected with the district attorney's office is coaching witnesses?" declared Rogers with great heat, and then with increasing anger raised his fist. If Mr. Cleary makes any such implication again I will not be responsible for what will happen to him. He does not dare to make any such an assertion outside of the courtroom. The testimony of Inspector Keefe that he had found transfer blanks of the I. W. W. organization in the satchel is the first evidence introduced connecting Wieler up with that organization in any manner. Keefe also declared that he found three copies of the manifesto of the Third International of Moscow in the grip.

## Man Who Escaped From Jail, on Trial

Louis Barzotti, one of four men who escaped from the county jail several months ago after beating Deputy Sheriff Sam Vandervoort with a blackjack, was put on trial on a charge of robbery before Judge J. J. Trabucco today. Barzotti was captured in a Reno gambling joint after he had been working with a crew of gamblers there for several weeks. The charge is that of taking \$7 from Martin R. Wright in a saloon at Seventh and Broadway more than a year ago. George Underwood, alleged to have been Barzotti's companion at the time, was acquitted.

## Jobs to Be Filled When Campbell Quits

Superintendent of Streets Martin Campbell, whose resignation, presented to Commissioner of Streets William J. Eacuss yesterday, will take effect Monday, will not be reappointed at that time to act without remuneration from the city until his successor is chosen. Campbell's resignation leaves several vacancies to be filled. As superintendent of streets he is ex-officio city engineer, and he is also head of the Municipal Board of Inquiry, and a member of the East-bay Water commission and the garbage investigation committee.

## Hint of Politics in Move To Form New Legion Post

A meeting to organize a new post has been made by reason of the "non-political" faction of Oakland Post, No. 5, American Legion, for next Monday evening at the Oakland Auditorium, Lieut. L. McClure, 588 East Twentieth street, who is one of the leaders of the new movement has been given by State executive officers, and that State Secretary Bebergall has issued the necessary papers for the proposed new body. Objection of a portion of the members to alleged political activities of the present organization's officers has been made, according to McClure.

Captain Walter J. Petersen, commander of Oakland Post, this morning communicated with State Secretary Bebergall in San Francisco, who stated that no dissatisfaction or criticism of Oakland Post accompanied the application for papers for a new post. The statements are untrue that application for a charter for a new post has been made by reason of the "non-political" faction of Oakland Post, No. 5, American Legion, for next Monday evening at the Oakland Auditorium, Lieut. L. McClure, 588 East Twentieth street, who is one of the leaders of the new movement has been given by State executive officers, and that State Secretary Bebergall has issued the necessary papers for the proposed new body.

A new post will be welcomed in this city by Oakland Post if it consists of properly accredited former service men and carries out the ideals of the organization. Oakland Post will be prepared to assist in the organization of the new post. HARRY ADAMS SENTENCED. Harry Adams, convicted of receiving stolen property, was sentenced to serve six months in the county jail by Judge L. S. Church today. A motion for a new trial, based on all of the statutory grounds, was denied.

## \$7,000,000 SOUGHT IN TEST SUIT

SAN FRANCISCO, March 12.—Approximately \$7,000,000 is involved in a test suit to begin Monday before United States Circuit Judge William C. Van Fleet brought on behalf of banks and corporations in San Francisco to bring about the return of income, corporation and surtaxes which, it is alleged by the plaintiffs, were paid to the government under protest. Among the plaintiffs will be the John Miller estate of the Miller and Lux Company who are to sue for the return of taxes approximating \$2,500,000. Justus S. Wardell, internal collector of revenue, is named as defendant.

**GIRLS! DRAW A MOIST CLOTH THROUGH HAIR**

Let "Danderine" save your hair and double its beauty.

Oh, girls, such an abundance of thick, heavy, invigorated hair; a perfect mass of wavy, silky hair, gloriously fluffy, bright and so easy to manage.

Just moisten a cloth with a little "Danderine" and carefully draw it through your hair, taking one small strand at a time; this magically removes all dirt, excess oil and grease, but your hair is not left brittle, dry, stringy or faded, but charmingly soft, with glossy, golden gleams and tender lights. The youthful gleams, tints and color are again in your hair.

"Danderine" is a tonic-beautifier. Besides doing the beauty of the hair at once, it checks dandruff and stops falling hair. Get delightful Danderine for a few cents at any drug or toilet counter and use it as dressing and invigorator as told on bottle.—Advertisement.

## Has Raised a New Standard for Baking Powder

Because it is made in the most careful and scientific manner from absolutely pure materials that remain pure in the baking and insure wholesome, healthful foods.

Because it possesses the greatest leavening power.

Because it is not affected by time or weather—it never loses its strength and never fails.

Because it is most economical—you save when you buy it and you save when you use it.

These are the reasons why Calumet is the standard baking powder—the choice of millions—more being sold than of any other brand.

Try it—always buy it. Your grocer can supply you.

Calumet contains only such ingredients as have been approved officially by the U. S. Food Authorities.

## Man Charged With Auto Drunk Drive

Charles Tonry, 1727 Curtis street, Berkeley, was arrested last night and charged with driving an automobile while intoxicated. It is said that he was running his machine in Contra Costa county near Richmond when arrested and that he is held to have been responsible for an accident.

The warrant was served by Officer George Kohler of the Berkeley department who turned Tonry over to Constable A. A. Alstrom. Tonry's ability to furnish \$1000 bail resulted in Tonry's being taken to the county jail at Martinez.

## Riker Arraigned on Mail Fraud Charges

SAN FRANCISCO, March 12.—D. H. Riker, former president of the now defunct California Swine Breeders' Association, was arraigned today before United States District Judge Dean on a charge of using the mails to defraud in connection with the administration of the company.

Riker was released on \$10,000 bail pending the return to San Francisco of C. H. Casey, former secretary-treasurer of the Swine Breeders' Association who is under arrest in New York charging him with embezzlement and conspiracy to misuse the United States mail.

## Maintenance Cut is Asked by Grocer

Claiming that he is bankrupt, Simon Rosenthal, proprietor of a grocery on Washington street, today petitioned Judge A. F. St. Sure to reduce the amount of separate maintenance he was paying his wife, Mrs. Sarah Rosenthal. The case was continued.

Mrs. Rosenthal declared she had only been receiving \$50 instead of \$75 a month, as set by the court, and that the money all went to support herself and two children.

## New York Threatened With Failure of Gas

NEW YORK, March 12.—Possibility of an oil shortage, which would deprive New York City of its gas supply has caused public service Commissioner Nacon to call a meeting here next Tuesday of representatives of oil and gas companies.

## FORMER WIFE TO ACCUSE DEMPSEY

LOS ANGELES, March 12.—Gordon Lawson, assistant United States District Attorney here, said today after talking with Maxine Wayne, Jack Dempsey's former wife, that "Mrs. Wayne has related a startling story, and will repeat it immediately to the grand jury." He declined to discuss the matter further, and Mrs. Wayne said she had been instructed not to talk.

Mrs. Wayne told newspapermen that she was ready and willing to tell anything she knew about Jack Dempsey's alleged efforts to evade the draft.

Mrs. Wayne arrived here last night from Tijuana, Mexico, where she was round by O. O. Orr, an agent of the Department of Justice and requested "to return."

The suggestion that Mrs. Wayne was wanted in connection with the arrest of Julius E. Gardner of San Diego on a charge of intimidating a federal witness was received in silence by federal authorities. Gardner was said by persons in sporting circles to be a close friend of Kearns and Dempsey.

## Officials to Speak at League's Dinner

Lieutenant-Colonel William F. Snow, United States Public Health Service, Lieutenant-Governor C. C. Young, Mrs. Elizabeth McManus, Social Director of the State Board of Health, will be the principal speakers at the annual dinner of the Public Welfare League tonight in the parlors of the First Congregational Church. Short addresses will be made by Alexander T. Stewart, community service; L. D. Compton, probation officer, and Commissioner F. F. Morse.

## Exporter Says China Big Airplane Market

China is destined to be the greatest field for airplane development in the world, according to the statement of Guy P. Slaughter, San Francisco exporter in an address before the members of the Allied Flyers' Club at their meeting in the Hotel Oakland last night. Other speakers at the meeting were John Heath, former government airplane factory inspector, who told of the work of radicals in hindering production during the war, and William Royale, president of the California Airplane Association, who attended the aviation luncheon of the Downtown Association of San Francisco at the St. Francis hotel next Wednesday.

## "One Big Union" Has Opened Office Here

Rising on the ruins of the I. W. W., the One Big Union, a new labor organization which plans to organize workmen along the industrial lines advocated by the Industrial Workers of the World instead of the trade lines of present organizations, has opened offices in Oakland at 212 Broadway.

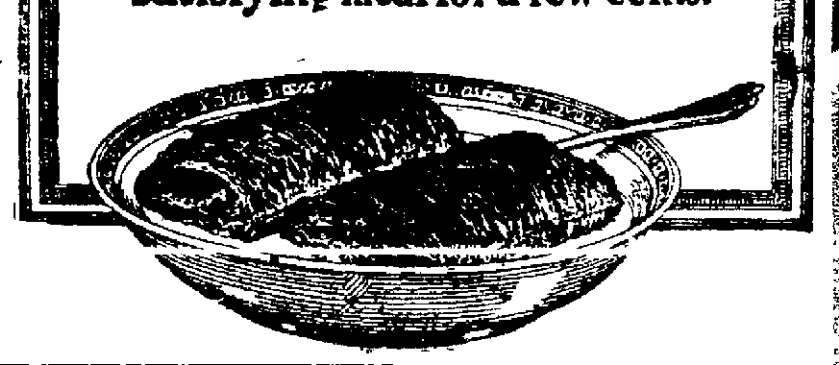

The Oakland office is under the direction of George Baker and Clarence Perry, both recently expelled from the Boilermakers' Union by orders from the international office.

MAXIMUM SENTENCES  
Maximum sentences were imposed by Police Judge George Samuels this morning on Cal Williams and Mame Jackson, narcotic addicts, who were arrested several days ago on a charge of violating the state poison act. They each received sentences of fifty days in the city prison.

because of their affiliation with the new organization.  
General offices of the new organization are located in Vancouver, British Columbia.

# TECHNICAL BASKET TEAM WINS HIGH SCHOOL CHAMPIONSHIP

## MANAGER DEL HOWARD SAYS HE WILL CARRY THREE SOUTHPAWS ON THE OAKLAND CLUB

### COACH BLESSE'S TECH BASKET SHOOTERS TOO FAST FOR FREMONT

Bennie Holmes' Great Guarding Against Geo. Grant is One of Features.

For the first time in four years, Fremont high school will not be able to host of the state high school championship basketball team. Yesterday afternoon at the Oakland auditorium, Coach C. H. Blesse's basket shoots representing Oakland Technical high handed out a fine 41 to 10 beating to the athletes of Fremont, and maybe the worst beating a Fremont team has received in those four years. It was just a case of too much class for the Fremont team in yesterday's contest. Even George Grant, the best bet of the Fremont team is willing to admit so, and Coach Clarence Street of Fremont lost no time after the game in speaking highly of Blesse's lads who are now the champions of the Oakland Athletic League. For the first time in his career as high school basketball player, Grant did not score a point, all because little Bennie Holmes was too clever a guard for him.

The way Coach Blesse has his team going right now, it looks like one of the Fremont teams which walked off with the state championship, but the chance for the local champions to prove themselves state champions will never come. Last year local high schools severed athletic relations with the C. I. F. or at least that federation told them they had done so, by refusing to compete in the Alameda County Athletic League with Berkeley and Alameda High.

Now the result is that the Tech team will have to be satisfied with winning the Oakland Athletic League championship and watch the Berkeley high team go after the state honors because they belong to the C. I. F. It certainly is hard luck on the local champions not to get a chance to try for the state title even though they took like a bunch that would be able to keep that title right in Oakland. Still, the local boys might issue a challenge to the winners of the C. I. F. and if they are turned down, no one could prevent them from making a claim to the title. As long as the local schools are at odds with the Berkeley and Alameda high schools they will not have any chance to fight for the state high school championship in any other line of sports, and immediately after yesterday's game at the auditorium, there were rumors that it would only be a short while before the Oakland Athletic League and C. I. F. officers would come to an understanding. We certainly would like to see Blesse's boys get a crack at the state title.

#### Bennie Holmes Certainly Was Star of the Game.

Coach Clarence Street used nine players in trying to keep Tech from getting Fremont's last chance for the A. L. championship, but it seemed the more new men the Fremont coach put in would only make things easier for Tech. In the first ten minutes of play, Fremont made four points, and in the second ten minutes they made four more. Gibson got a field basket, the only two points the Green and Gold could get in the second half.

#### Coach Street Was Shy Of Material This Year.

On the point scoring for Tech, Houvinen and Hutchinson put up a pretty fight for the most. Hutchinson shot eight field baskets, while Houvinen shot seven field baskets and three fouls. While students at Fremont are fretting over the loss of the championship, they at the same time should try and remember that Coach Clarence Street and his athletes did all that was in their power to try and keep it from going to Tech. They did very well considering the handicap under which they worked. Grant is the only member in last season's championship team, while Prell was a sub on last year's team. All the rest of the players are green youngsters. Street did very well when the above is taken into consideration.

#### FIRST HALF

Soon as the ball left center, it was plain that Holmes was going to keep close watch on Grant. Hutchinson scored the first field basket for Tech when he broke by Prell, who tried

#### Fremont Coach Says Better Team Won

By CLARENCE STREET, Coach of Fremont  
"The best team won the championship of the league. Coach Blesse of Tech has a fine bunch of players. They won from our boys by superior playing, and like most others who have watched Tech play, I am sorry that they cannot go after the state high school championship, which was held by Fremont for the past three years. I think they would be able to keep the title in Oakland if they had the chance."

to take the ball away. Houvinen next poked the ball into the basket for Tech. Both times Gibson of Fremont put the ball in the basket on free throws for personal fouls by Tech. Both times Gibson of Fremont put the ball in the basket on free throws for personal fouls by Tech. Both times Gibson of Fremont put the ball in the basket on free throws for personal fouls by Tech.

SECOND HALF  
In the first half, Tech was out for a while before he will display all that he has. Krause is told Howard that he will be right, and the boss of the Oaks says that the southpaw never gave him the wrong dope at any time. Last season, after Krause tried to come back with his sore hand, he was not in condition. So, why should he say he is right this year. If he is not, let's hope that Harry is right, for it is going to mean a lot of fun for Del Howard to select his three southpaw hurlers, as he always has Harry Henry (Red) Henry, last season's staff to give much consideration. Geary has not yet returned on the job for training, but it is believed he and Harry Weaver will put in an appearance today or tonight. They both went west. Secretary McFarlin expects them to come west tonight.

#### Oaks Will Play Chamber of Commerce Tomorrow

The first practice game of the year will be played by the Oaks tomorrow afternoon when Tech will visit the Oakland Chamber of Commerce line at the local Coast League park. Del Howard has planned to give the Tech team a look at the Oaks, and the Oaks will have a look at the Tech team. The Oaks will have a look at the Tech team. ### OAKS FIRST PRACTICE GAME TOMORROW WITH CHAMBER OF COMMERCE

#### Spokane Will Be Farm for All Young Players Who Fail to Make Good This Season

By EDDIE MURPHY.  
Del Howard, manager of the Oakland baseball club, says that he figures left-handed pitchers are going to cut a big figure this season in deciding the pennant race in the Pacific Coast League, and just to prove that he is sure he knows what he is talking about, he says he will carry three left-handed pitchers throughout the season. It was yesterday afternoon after he again watched his Oaks in a three-hour workout that Howard decided he would carry three southpaw flingers. He has been keeping a close watch on the work of his new southpaws, "Lefty" Russell, secured from the Brooklyn club, and Winn from the Des Moines club of the Western League. He figures that both those pitchers will stay in the coast league and win the share of games to make them leading pitchers.

The leader of the Oaks is more than satisfied with the way the pair of new hurlers have showed up thus far, but what he seems to be mostly cheerful over is that Harry Krause, who is as good as any southpaw in the minor leagues when in condition, will be able to take his regular turn in the box this season.

#### Howard Also Has Geary and Two Bush Southpaws

Howard says that to take Harry Krause's own words as the truth that his pitching arm is again in shape and not the dud of the big southpaw. Krause has been checking them over to the hatters and cutting them in the first few workouts, but it will be a while before he will display all that he has. Krause is told Howard that he will be right, and the boss of the Oaks says that the southpaw never gave him the wrong dope at any time. Last season, after Krause tried to come back with his sore hand, he was not in condition. So, why should he say he is right this year. #### L. A. Basketball Team Beaten by New York

ATLANTA, Ga. March 12.—A new national basketball champion will emerge from the Amateur Athletic Union tournament now being played here. The Los Angeles Athletic Club team, present title holders was eliminated from the race yesterday by the New York University five, 25 to 22, going down to defeat before an audience that never faltered.

#### Junior Golds Look Cinch to Be in P. A. A. Basket Finals

The sensational 130-pound basketballers of the Oakland Y. M. C. A. are stepping a lively pace, and they look like a sure bet in the P. A. A. finals next Wednesday night. This will probably be with their old opponents, the Olympic Club 130-pound aggregation.

#### Dave Shade Holds Billy Alvarez Even

TAPT, Cal. March 12.—Dave Shade of Los Angeles and Billy Alvarez of Tapt, Cal. fought a three-round boxing match here last night. Jack Pinnell of Bakersfield and Young Webb of Oakland boxed a four-round affair here last night. The decision was over Joe Bradley.

#### Money-Back Tossers in the Field Again

Next Sunday morning at Bushrod playgrounds two clubs from the Money-Back Smith team will look up in what is expected to be a real battle. The Regulars will meet the Extras, and both teams will have a strong line-up in the field. Frank "Lefty" Biggs will do the chucking for the regulars with John "Blondie" Malsano behind the log. This battery is not worrying the Extras, for they will have two good men to work for them in Bill Freitas and Ray Ebe. The game will start at 9:30. Clubs composed of employees of any of the local stores wishing games with the Money-Back Smith club can arrange for a game by writing to Mr. Apple at

#### Dick Rutherford is Visiting Here; May Be Oregon Coach

Dick Rutherford, coach of Washington University at St. Louis, who the pigskin followers of the corn huskers' state will never forget, spent Tuesday in Oakland, with Bud Kearns and Ed Hager, who were champions of Rutherford on the Nebraska All-Star basketball team. Rutherford's trip to the West Coast was for the purpose of looking over the field at the Oregon Aggie School. If Rutherford is secured to fill the shoes we can look for some real activity at U. C. next fall.

#### Jimmy Wilde and F. Mason Meet Tonight

TOLEDO, O. March 12.—Jimmy Wilde, flyweight champion of England and Frankie Mason, of Fort Wayne, Ind., claimant of the American title will meet in a twelve-round no-decision bout at the Coliseum tonight.

## Selling Good Clothes "At prices that are fair to you and us"

THAT headline expresses our method of doing business—we restate it plainly, definitely, so that you and the thousands of other men who appreciate good clothes may know and understand the continuous good-value policy which is always active in this organization. "At prices that are fair to you and us," may be a newer, more daring way of stating it—but the principle it expresses is as old and substantial as our fifty-five years of business. It means good value always—in good times or bad; and we are proud to say that our entire stock of good clothes is offered to you on that basis.

The stocks of our five stores, not one alone, are working always to give you increasingly better value; the tremendous buying for these five growing stores is the factor that provides far bigger stocks, more varied selections and lower prices. That's good value for you and good business for us—at all times.

### In this store at the present time

there is a series of the famous Hart Schaffner & Marx All-Wool Suits priced as low as \$37.50, \$40 and \$45. Such prices for good clothes are extremely scarce today, but five-store buying makes them possible here—and that's a fact well worth knowing, if you want real value.

## Mosswood Girls To Play Tennis At Sacramento

Local tennis players are greatly interested in the inter-club tennis matches which will be played tomorrow and Sunday. Of particular interest is the trip of the women's team representing Mosswood Park to Sacramento to meet the feminine racqueters of the Sutter Tennis Club.

Mrs. C. G. Clute, who has had considerable experience in tournament play, will play the first singles for the local club against Louise Murphy of Sacramento. Miss Murphy is one of the ranking junior players of the state. Ruth Patrick will play second singles for Mosswood. Mrs. M. Tusher will play the third singles. Fourth singles will be played by Mrs. C. G. Clute and Miss Berger. Fourth singles will be played by Mrs. C. G. Clute and Miss Berger. Fourth singles will be played by Mrs. C. G. Clute and Miss Berger.

With the Mosswood team, the Sutter Club will also enter the men's team of the California Tennis Club of San Francisco. The personnel of this team includes the coast champion Roland Roberts and the Kinsey brothers, the ranking doubles team of the state.

## U. C. Boxers Take Six Out of Seven

The University of California won six out of seven matches from the Stanford glove warriors at the Stanford gym last night.

The results follow:

Santom weight—C. Rockwell (S.) decision over B. Brennan (C.); Cohen (C.) decision over T. Zerpuch (S.); Featherweight—highest weight, C. Wheeler, decision over J. Hurley (S.); welterweight, J. Chies, decision over H. Stewart (S.); middleweight, J. Cline (C.) decision over M. Evans (S.); R. Huntington (C.) decision over H. Van Fleis (S.); heavy eight, J. Skinner (C.) decision over B. Cox (S.).

## Berkeley High to Play St. Helena

St. Helena High School unlimited basketball team clashes with Berkeley's strong unlimited quintet tonight at St. Helena. St. Helena has won from all schools in the North-western League. Berkeley has won the bay city section. This game will decide the championship of the north coast section of the C. T. F.

## East Versus West on Tennis Courts

East and West will clash on the courts of the Berkeley Tennis Club March 20 and 21, when Mrs. George W. Wightman and Miss Eleanor Goss of Boston and New York respectively, meet Helen Baker of San Francisco and Mrs. E. O. Bruce of Santa Monica. There will be five matches, two singles, on Saturday March 20, and two singles on Sunday March 21, and two mixed singles and the doubles on the next day.

## Gossip for Baseball Fans

By MAURY PESSANO

In the last two games that Hal Greger has played he got six hits out of eight trips to the rubber. Some hitting against the pitching of Babe Iliakis and Carl Schnell. Joe

Frankie Burns and Joe Azevedo are still bitter enemies after all these years. The pair met on Broadway the other day and the following conversation ensued:

"Hello Joe," said Burns. "I see you are doing a come-back."

"Yes," replied Azevedo, "but I don't see you fighting any main events. Then Burns went to Tommy Simpson and demanded a match with his ancient rival."

Burns and Azevedo have boxed three times. Burns took two ten-round decisions and won on a foul in the seventh round of a fifteen-round bout. That fight was one of the toughest ever staged in this city. It took place at the old Wheeler Auditorium. Walker is a clean little boxer and no one regretted the abrupt ending of the Garcia fight more than he did.

The playing of Joe Tobin for the Boston Red Sox, since joining that club makes the fans think of the days when Joe was covering left field for the San Francisco Giants. He was one of the best outfielders in the coast league when he was a miter and fielder. He had a great year with the Giants, hitting and fielding in grand style. He will be a good man for the Caliform club if he can show the same class.

Bill Wagner, manager of the C. L. Best Tractors was lucky to when he signed Rod Allen to play first base for his club. Rod has been doing some wonderful playing, hitting the ball hard. Last Sunday at Stockton, it was his great stick work against the Shasta Limited club that helped win the game. He got three hits, every one of them helping the Cherry town boys to a win, and cinch the series over Ted Graham's boys.

Another St. Mary's Phoenix boy who showed up well was Lesa Pessano, second sacker. He is rated as one of the best boys now playing with the College club. He and Keeler make a fine combination around the keyholes.

In the same lad that played at Pittsburg with the Columbia Steel company club. He is a very dangerous man with the stick.

Manager Ray Luttrell of the Goodrich 20-10's, has now opened a new store to meet any of the semi-pro clubs around the bay and that country games are solicited. Luttrell has gathered together a formidable club but promises to cut a wide swath in the ranks of the bush teams the coming season.

Although not quite as strong in one or two departments as he wishes it to be, the club looks strong, and with one or two seasons as a whole Luttrell can get hold of the players he wants he will be O. K. The catching department is Luttrell's only source of worry at present.

The pitching will fall on the shoulders of Potts, an un-country boy who has been pitching for Placerville, and several other small towns up-state. He has got a lot of stuff.

## What Is Rheumatism? Why Suffer from It?

Sufferers Should Realize That It Is a Blood Infection and Can Be Permanently Relieved.

Rheumatism means that the blood has become saturated with uric acid poison. It does not require medical advice to know that good health is absolutely dependent upon pure blood. When the muscles and joints become sore and drawn with rheumatism, it is not a wise thing to take a little salt and by rubbing it on the sore spot, expect to get rid of your rheumatism. You must go deeper than that, down deep into

## ANGLERS' NOOK

The fishing season has scarcely started, but if you can get a better yarn than this before next winter, send it in.

My nephew of Willits was driving his stage coach to Willits, lodge, Brancumb, Mendocino county, last Sunday, and was almost drowned when he ran into a school of steelhead, in approaching Brancumb. A shallow part of the river instead of crossing the bridge, and he picked a place where the steelhead were thick. The big fellows splashed water all over Nelson and his party.

W. J. Klefer of the Brancumb, who spent the winter in Oakland, vouches for the truth of this yarn. He says he has known Nelson for thirty years and has never known him to tell anything but the truth, even about fish. Also Klefer says he knows the steelheads are almost choking the river.

Alameda Post, American Legion, will stage its first boxing show at Neptune Beach tonight with six bouts scheduled. Joe Ketchel and Roy Renner meet in the special event while Johnny Conde and Frankie McCann will tangle in the special.

The other bouts are: Ray Allan vs. Racehorse Roberts. George Wells vs. Freddie Graham. Young Gibbons vs. Kid Morrison. Jimmy Edwards vs. Frank Williams.

A battle royal and some jazz music will add to the merriment. Lieutenant of Police George Daly will act as referee and City Assessor Freddie Croll will be the time-keeper.

The San Leandro Athletic Club has hatched up some of the best boys in the eastern end of the county for its second card which will be staged at St. Joseph's hall, San Leandro, tonight. Here is the program:

Tony Gomas, Twenty-third avenue vs. Kid Kallard, East Oakland. Manuel Freitas, little of California Cotton Mills vs. Young Frenchy, West Oakland.

Tommy Durie, Oakland, vs. Bill Clark, Watts Tract. Bobby Barry, Oakland, vs. Freddie Perry, Twenty-third avenue. Jimmy Rizzo, Elmhurst, vs. Teddy Silva, Oakland.

Harold Johnson, Hayward, vs. Tommy Lacey, San Leandro. Frankie Garcia has recovered from the effects of the foul punch accidentally delivered by Al Walker the Auditorium last Wednesday night, and the pair have matched up again in one of the preliminaries to the Frankie Burns-Joe Azevedo scrap next Wednesday. Walker is a clean little boxer and no one regretted the abrupt ending of the Garcia fight more than he did.

Following is the complete card for next Wednesday night at the Auditorium:

Frankie Burns vs. Joe Azevedo. Joe Ferro vs. Frankie Denny. Joe Leopold vs. George Spencer. Ed. Warner vs. Al Summers. King Kelly vs. Pat Doyle. Red Chalmers vs. Bone Remmer. Joe Golden vs. Jimmie Adams.

An special added attraction next week—Bene Remmer and Chalmers will box four rounds with Harold Alexander Fitzgibbon Broom.

## Cal. Cotton Millers Open Season With Win From Newark

Les Cotton and his California Cotton Mills team traveled to Newark and returned with a 6-to-5 victory tucked away. It was one of those ball games that resembled a slugging match for the first few innings, but later resulted in a great pitching argument between "Frenchy" La Cloustra of the Millers and "Shine" Silva of the Newark Wedgewoods.

Silva, although being the losing pitcher, buried a wonderful game, allowing only seven hits and fanning sixteen, while La Cloustra of the winners allowed twelve hits. Three hits gave the Wedgewoods a one-run lead in the second, but the Millers scored a pair in the third. The Wedgewoods took the lead again with four runs on as many hits in the fourth, only to have the Millers "out" runs on two hits and Silva's streak of wildness. Right there the scoring ended with the Millers leading 6 to 5. Silva did not allow a hit in the last six innings, while La Cloustra allowed three.

Apperson started at bat for the Millers with a triple and single, the triple being made with two men on the paths. The score:

## Stanford Crew Men in Strict Training

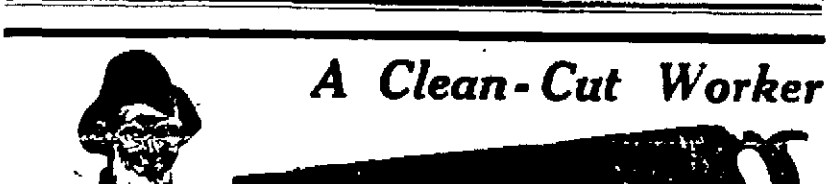

STANFORD UNIVERSITY, March 11.—Strict training rules have been put on to all the Cardinal crew squads by Coach Les Rogers. With the California race only a month away Rogers will begin the final training to put his men in shape for the three and one-half mile grind on the Oakland estuary. He expects to have his men in the best of physical condition by the time of the race.

Training rules as posted today are: 1. No smoking or drinking. 2. No dancing. 3. No eating between meals. 4. No eating of candies or rich foods. 5. No roughhouse or other undue exercise. 6. No swimming, bicycle or motor-cycling. 7. No more than one glass of water with meals. 8. In bed by 11 p. m.

## Key System Nine Loses Hard Fought Game to Electrics

The Western Electric Co. and the Key System ball club met in a fast game at Jackson park, the Electric boys winning 2 to 0. The game was fast and every play was made with snap and ginger. The Key System, in offering the fast good ball at Jackson park every Saturday afternoon, Old Jack MacKenzie pitched a wonderful game for the tall-tall team, while Cooper Old Jack MacKenzie started at the bat. Lefty Staffens pitched a good game for the Electric boys, but was not as effective as MacKenzie.

### DR. REED LAUDS COUNTY HEALTH

Tribute to the work of the Alameda county public health center was paid last night by Major Charles A. L. Reed of Cincinnati and a past president of the American Medical Association, who addressed a meeting of persons interested in public health activities at the center headquarters. His subject was "The Public, the Medical Profession and the New Era."

Dr. Reed is on a tour of the nation in the interests of public health work as carried on locally by the health center but on his arrival here that California is taking the initiative in organizing for special work of this kind. In paying tribute to the local center he said:

"In preaching this gospel in California, I experience both disappointment and satisfaction; disappointment in finding myself engaged in the always unending task of merely carrying coals to Newcastle; satisfaction in discovering that the principles for which I am contending have already here commanded recognition and are being carried out by methods and instrumentalities of the highest order. I look upon the California League for the Conservation of Public Health as altogether the most advanced exemplification of the policy for which I am contending and an inspiring object lesson for every other state in the union. I commend it to both the favorable consideration and the liberal financial support of every citizen of this commonwealth."

Dr. Dudley Smith is president of the Alameda county health center and Mrs. O. D. Hamlin, Lenuel P. Adams, S. H. Butten, E. N. Ewer, Clark Burnham and C. H. Reynolds are directors and executive officers. The organization has the building formerly occupied by the Oakland College of Medicine at Thirty-first and Grove streets.

Seventeen Southern coal mining enterprises recently announced plans for extending plants and opening new mines.

### Rent Profiteers Tax Clubs Of Gamblers in Chinatown

Rent profiteering has at last penetrated the Oriental quarters in Oakland. A Chinaman's right to exist on this earth and the question of how much he should pay for a place to sleep and eat while existing has brought about a controversy between two factions, to see which shall control the fixing of rent in Chinatown.

The trouble started several weeks ago when Sam Kee invested some of his gambling profits, which he has accumulated during the past five years, in property, either buying it or leasing it. His holdings are located principally along Webster street between Seventh and Ninth streets. He served notice on the Chinese clubs, which occupied club rooms in buildings he had leased, that beginning with March 1, rents would be raised 25 per cent. The booming of rent on the part of Sam Kee affected Ernest Lun, whose interests were involved. He, too, boosted the rent of properties he controlled on the opposite side of Chinatown from Sam Kee. Then the pot of trouble began to boil in Chinatown. Reports of long wars were circulated and Chinamen were not so numerous on the streets.

Keen Wong, who pays rent, is one of the best informed of the Orientals in Chinatown controversy. He explains it as follows:

"Newspaper he say plenty shoot soon. Chinamen he say plenty sleep in street soon. All Chinamen very much mad. No place for Chinese club. Sam Kee want too much money. Ernest Lun he want too much money. Police come ask Chinamen if gamble. Chinamen say no. Police go away. He think Chinamen lie. No lie. No gamble. Every time gamble he pay more ten dollar, maybe twenty dollar. Police say man with gun from Sam Sisko come for shoot. Me here all time. Never see man with gun. Me know Chinamen pretty much. No see strange Chinaman with gun. No gamble. Police think Chinamen plenty fight because Sam Kee ask too much money. Mebbe lots Chinamen no like Sam Kee. Lots Chinamen no like Ernest Lun. Mebbe shoot. Don't know. No yet. All trouble come because one Chinamen have too much money. He want more. No other Chinamen he want more too. Lots Chinamen poor. Like place for Chinese club. Mebbe much trouble after while. No trouble yet. No shoot yet."

### MARRYING PARSON SOUGHT BY POLICE

Cupid ran afoul of the Oakland police this morning when a warrant was issued for the arrest of the Rev. John Harwood Pierce, special deputy of the little love god and known for 20 years as Oakland's marrying parson, on a charge of bribing a public official. Police officers who attempted to serve the warrant report that the picturesque "marrying parson" could not be found.

The complaint against Pierce was made by William O'Malia, a deputy sanitary inspector in the health department, who charges that Pierce gave him a ten-dollar bill with the request that O'Malia "take care of him," during an inspection of a tenement occupied by Pierce at 436 Fifth street. It is at this location that the

### FATHER OF 12 IS DEAD; CHILDREN, WIDOW, ALL ILL

MARTINEZ, March 12.—Tony P. Morrales, Pleasant Hill dairyman and father of 12 children, died at his home yesterday morning of influenza at 35 years of age. Every member of the family has been ill with influenza and the widow, Amelia Morrales, is confined to her home in a serious condition. There are four girls and eight boys in the family, the eldest of whom is 17 years old.

Morrales, a native of Portugal, has resided in the Pleasant Hill district for the past ten years.

Seventy-five per cent of the appointments of the civil service in Washington during the war were filled by women.

"marrying parson" conducts his wholesale marriage bureau, and where he has married, he says, 14,000 persons.

### LIVERMORE MAN DIES

LIVERMORE, March 12.—Claude Hamble, who left here for Fallon, Nevada, with his family a few months ago, died there yesterday, according to a telegram received here from Mrs. Hamble by her mother, Mrs. Ben Bernal. Mrs. Hamble is thought to have been the cause of his death. He was 26 years old and leaves a widow and a two-year-old son.

### Need of Naval Base Here Is Urged by Congressmen

Expressions of Congressman Thomas S. Butler, chairman of the house committee on naval affairs, and of many of the committeemen favoring the permanent maintenance of half of the American navy in Pacific waters and declaring a naval base on the Pacific coast is the nation's greatest military need, are included in the record of the committee hearing of February 23.

At that time the item of a docking and repair plant on San Francisco Bay, the cost of which was to be \$10,000,000 was under consideration and Congressman J. Arthur Elston, John L. Nolan and C. F. Curry were invited to be present. The committee was then in session considering the item of a docking and repair plant on San Francisco Bay, the cost of which was to be \$10,000,000 was under consideration and Congressman J. Arthur Elston, John L. Nolan and C. F. Curry were invited to be present.

### Ruth Randall's Diary Bares Tenets of Vampire Philosophy

CHICAGO, March 12.—Almost simultaneously with the burial yesterday of Ruth Randall, the divorcee, who killed Captain Clifford Beyer, her married admirer, as he slept beside her and then ended her own life, her portion of her diary was found. It was a remarkable chronicle of the thoughts, feelings and incidents in the life of the "vampire woman."

"God help me and keep me a little good," she wrote under date of September 26, 1914, "just a little good."

A few days later the diary records a plaint against a woman who interrupted a telephone conversation, and adds: "This telephone woman has my goat. I bet she goes to church on Sundays."

On August 1, 1915, she describes the breaking up of her married life with Norman Randall.

"O God! I will dare anything," she wrote. "One man has wrecked all the happy illusions I had."

Frequently in the pages of the diary appeared the names of men, friends of her husband, who tried to make love to her.

Of a sultor known as Ahern, she wrote: "Ahern phoned yesterday; made advances, but I gave him no chance. Men, how strong and fine you should be—but—"

MOTHER REMONSTRATES

Later she speaks of a remonstrance from her mother against the styles she had been affecting.

"Last Thursday went to mother's," she wrote, "where she informed me of the impossibility of keeping my spotless reputation if I continue to expose in public with my neck being too low and my husband of my skirts being too high. Heaven-help me."

The cigarette smoking habit was acquired by Mrs. Randall, she says, in 1914, and she speaks of it as an accomplishment. "I learned to smoke without any trouble, coughing or anything. Why, it's the easiest thing in the world. I'm a fiend now."

Her husband left her on September 26 to live with his folks and returned to her on October 8. Commenting on his return, she says:

## OLD PARTIES ONLY JOCKEYS YOUNG SAYS

BERKELEY, March 12.—The Republican and Democratic parties of today were classified as "jokes" by a young man, who said he was a "joke" himself. The young man, who is a member of the Berkeley chapter of the Civic League in Unity Hall, said he was a "joke" because he was a "joke" himself. He said he was a "joke" because he was a "joke" himself. He said he was a "joke" because he was a "joke" himself.

Young's statement caused some of the members of the Berkeley chapter of the Civic League to be amused. They said he was a "joke" because he was a "joke" himself. They said he was a "joke" because he was a "joke" himself. They said he was a "joke" because he was a "joke" himself.

Young told the civic leaguers, "The Republican and Democratic parties of today stand for nothing. They are jokes pure and simple and this country has outgrown them." American political legislative machinery Young classified still further as "archaic," the most archaic of its kind in the world, he declared.

As one of the evidences of "archaic" legislation, Lieutenant-Governor Young cited the election system of this state. He said the system was a "joke" because it was a "joke" itself. He said the system was a "joke" because it was a "joke" itself. He said the system was a "joke" because it was a "joke" itself.

## MESS CALL OF ENGINEERS FOR REUNION GIVEN

In an open letter to all former members of the 37th engineers, U. S. A., R. A. Deling and O. B. Gladding of Oakland have issued a mess call to all who wish to join in a regimental dinner on March 25. The letter reads as follows:

"On Thursday evening, March 25, we hope to have a 'beaucoup' of old vets from the 37th engineers' for dinner at the Colombo restaurant, Broadway and Grant avenue, San Francisco.

"Tell any 37th engineers you know to 'fall in' the mess line at 7 p. m. by March 25. Just \$2. The letter reads as follows:

## NO FLOWERS NO TAXES AT U. C. DANCE

BERKELEY, March 12.—Are flowers non-essential at a formal dance? "Sure," answer members of the Freshman class of the University of California; and not only are they non-essential, but they are out of place and needlessly expensive, they add.

Taxicabs, too, are placed on the barred list by the first year students, who have announced that the Freshie Glee, which will be held next Friday, will set a precedent in inexpensive dancing. The college men will follow the request of the Freshman class of the University of California; and not only are they non-essential, but they are out of place and needlessly expensive, they add.

The determination of the Freshmen to reduce the cost of the annual formal affair follows the request of the Freshman class of the University of California; and not only are they non-essential, but they are out of place and needlessly expensive, they add.

## THE POLITICAL FIELD

SAN FRANCISCO, March 12.—California's presidential primary in May will witness a battle between the supporters of Hiram Johnson and Herbert Hoover, if friends of Hoover hold to their determination reached last yesterday. Both are Californians.

Two hundred Hoover men voted to put a Republican delegation pledged to Hoover in the primary. Warren Gregory was elected president of the new organization, which is known as the Hoover Club of California.

It is not yet determined whether the ticket will be straight-out Hoover or a "no-preference" ticket. "If you are anxious to vote at the primaries and want my advice, I would register your party affiliation," the Lieutenant-Governor told the women in taking issue with Ray Benjamin, chairman of the State central committee of the Republican party, and coinciding with the ruling of Attorney-General U. S. Webb.

Neither of the national headquarters would comment today on Hoover's ability to lead the party. The impression prevailing in the various rival camps, however, so far as any comment could be obtained, was that the former, and administrative public relations man before the war, and an Independent Republican now, left much to the imagination.

The newly launched Hoover boom here continued blithely on its way, irrespective of the opinions of some Republicans that he cannot be considered a "Republican."

Third major political party is planned. A movement to launch a third major political party, founded on "progressive" principles was under way here today. It was being supported by about fifty citizens of Berkeley.

This group has asked William Randolph Hearst, publisher, to assume the leadership in organizing the party. The group is now planning to become its candidate for president.

Arada, owner of an ark at the beach and of a house, has withdrawn his injunction suit against the city. Arada had planned to prevent the city from forcing him to move his ark.

**Wood Will Answer Charge on Schools**

"Are the Public Schools a Failure?" will be answered by Will C. Wood, State Superintendent of Schools, at the luncheon at Hotel Oakland tomorrow, given under the auspices of the Alameda County Educational Association. The guests of honor will include State Superintendent Wood, Fred M. Hunter, superintendent of Oakland schools; H. B. Wilson, superintendent of Berkeley schools; C. F. DeForest, superintendent of Alameda schools; and William John Cooper, superintendent of Piedmont schools. Miss A. B. Wade is president of the association which includes all the pedagogues in Alameda county.

**Hiking Club Plans to Visit Wildcat Canyon**

The Berkeley hills and the trails through Wildcat canyon and to Grizzly Peak will furnish the scene for the semi-monthly outing of the members of the Contra Costa Hiking Club on Sunday. The party will leave the lower part of the University of California campus at the old cove at 10 a. m. and walk to Wildcat canyon where they will lunch and return over the summit to Grizzly Peak. The party is to be led by Russell Archard of the University. The association which includes all the pedagogues in Alameda county.

**Says Wife Confessed Love for Another**

Mrs. May Althausen invited men other than her husband to her home, so conducted herself as to "endanger the morals of her children," and confessed to her husband that she loved some one else and no use of love for him, according to the divorce complaint of Geo. Althausen, who was granted a decree of divorce by Judge J. J. Thompson on the ground of cruelty. They were married in 1911 and have three children, whose custody was granted to the husband.

**Wires Tick Tia Juana Race News in the Eastbay District**

This tip, transmitted in code, was received by a bettor who played the horse at Emeryville on March 6 and won \$160. Dated San Diego, the source of the tip, really was Tia Juana where the race was run. Translated out of code the telegram means: "Play Van Dillon in the fifth race. Good price."

**Gambling Trust Serves Pool in Bay Cities**

The nerves of the racetrack gambling system that has been unearthed on this side of the bay are the telegraph wires between here and Tia Juana, the track just across the international line in Mexico. Over these wires, privately leased and privately disposed, comes the information upon which the whole game is conducted here. The racing association at Tia Juana owns the wire privileges. These it has sold to a local pool of reliable men who are able to put up the stiff price demanded. This pool sells the wire privileges to bookmakers wherever they are run in Oakland and Emeryville. Similar pools, or combines, exist elsewhere in the country. In an office room a group of men may be seen sitting around a table on which are a dozen telephones at about 11 o'clock in the morning. In one corner of the room a telegraph instrument begins to sputter softly. The operator takes the messages without writing them down and repeats them to the men at the telephones. The men repeat his words into the telephone mouth pieces. The wire is working. The operator is sitting cross-legged on his chair smoking a cigarette and taking the "stuff" easily. The "prices" and "scratches" are coming over. The first race comes first, followed by the second, third, etc., in consecutive order. "Discord, scratched," says the operator. "Dick Horn, 3 to 2. Prosperi's son, 2 to 5." The names of the other horses and their prices or odds come in. The men at the telephones repeat the messages. A heavy-set man with a two-carat diamond in his tie is listening carefully as he paces softly back and forth. Then the operator says a word which in the telephone man does not repeat. "Scratches," he says. The heavy-set man takes out his code book and looks up the word. It is his private tip on the winner. The telegraph operator nor the telephone men know the translation. The "scratches," or eliminations, are an omission of the horses having been scratched, there is a slight lull. Then the telegraph instrument begins to sputter again. The operator walks leisurely to his seat, pulls a switch, sends a word or two and then gets ready to receive the results. The men take up their telephones. Winner, place and show—the names of the winning horses—the second and third horses come through. No superfluous words are used. The operator repeats the names of the horses leading in the first race. There is a lull and then the report on the second race comes in. PARLOUS PRICE PAID FOR PRIVILEGE The fabulous price that the clearing house gambler pays for his private wire "monopoly" is not known. The pool rooms at 3700, 3308 and 4050 San Pablo avenue in Emeryville, paid \$250 a day for the privilege of a private telephone wire, with no number in the directory, which connects directly with the clearing house for race track information. When the man at the clearing house lifts a receiver he is in direct connection with one or more smaller pool rooms. So widely distributed over the Eastbay cities are small bucket-shops that one man declared today he could go to twenty-five per cent of the saloons, pool halls and cigar

stores in this region and place a bet on a horse.

"The proprietors of these places will take your bet and will telephone it in for you," he said. "Of course they get a good percentage of your winnings."

TIPS CONVEYED BY PRIVATE MESSAGES. Besides this general wire, the telegraph offices both here and in South Berkeley, where many of the Emeryville players live, are busy through the morning with private messages, seemingly innocent but which contain tips and forecasts. Here is a recent example of interest. "Norfolk Pasadena Ohio Wednesday

March Brings Out Unsightly Spots. How to Remove Easily.

The woman with tender skin dreads March because it is likely to cover her face with ugly freckles. No matter how thick her veil, the sun and winds have a strong tendency to make her freckles. Fortunately for her peace of mind, Othine—double strength, makes it possible for even those most susceptible to keep their skin clear and white. No matter how stubborn a case of freckles you have, the double strength Othine should remove them. Get an ounce from your druggist and bask the freckles. Money back if it fails.—Advertisement.

**STOMACH TROUBLES ARE DUE TO ACIDITY**

Tells Safe, Certain, Speedy Relief for Acid Indigestion.

So-called stomach troubles, such as indigestion, gas, sourness, stomach-ache and inability to retain food are in probably nine cases out of ten, simply evidence that excessive secretion of acid is taking place in the stomach, causing the formation of gas and acid indigestion. Gas distends the stomach and causes that full, oppressive, burning feeling, sometimes known as heartburn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the excess development of secretion of acid. To stop or prevent this souring of the food contents of the stomach and to neutralize the acid, and make it bland and harmless, a teaspoonful of bisphosphate of soda, a good and effective corrector of acid stomach, should be taken in a quarter of a glass of hot or cold water after eating or whenever gas, sourness or acidity is felt. This sweetens the stomach and neutralizes the acidity in a few moments and is a perfectly harmless and inexpensive remedy to use. An antacid, such as bisphosphate of soda, which is obtained from any druggist in either powder or tablet form enables the stomach to do its work properly without the aid of artificial digestion. Magnesia comes in several forms, so be certain to ask for and take only Bisphosphate of Soda. This is especially prepared for the above purpose.—Advertisement.

day Two Good Price." This enigmatic seven word telegram received at the South Berkeley Western Union office on March 6 by an Emeryville gambler netted him a cool \$160. It was a straight tip on the races at Tia Juana. The man who gave this tip claims to control the private wire to San Francisco and the Eastbay and has the inside dope. Seven meaningless words were worth nearly \$25 a word. The telegram came Saturday. The man took out his code and translated "V—O—N 5 Two Good Price." He looked at the racing dope in his favorite paper. In the fifth race indicated by the numeral "5" he found the name of the horse; "Von Dillon." Von Dillon was a "dark horse" not mentioned in any of the favorite tips. The whole translation lay before him. Written out in full the code said: "Bet on Von Dillon fifth race. You can get good price." The numeral two had no significance other than being a punctuation mark.

The gambler—call him Mr. Jones—took up his telephone and called a number very quietly. He was answered promptly. A few moments' haggling and he had placed \$40 at 4 to 1 on Von Dillon to win. Von Dillon won. Jones said nothing more about it but by accident he met a friend in a saloon near the Key Route station in Emeryville that evening. The friend handed him a roll of bills. "Here's the money my wife's sister-in-law borrowed from your stepdaughter for her trousseau," he said. This is the simple history of Jones' tip, bet, winning and payment thereof. It is typical of a hundred other wagers that have been placed every day in Eastbay cities. "Disaster and ruin confronts the man who tries to go up against the racing game and beat it as an outsider," declared Jones, after he had won his \$160. "This is the first bet I have made in three months. I never make a bet unless I have a tip on which I can rely."
